British
Conifer
Society

Welcome to Shallowmead Nurseries!

Firstly we would like to thank all of our customers for all your great support, encouragement and positive comments you have given us through the transition to new ownership and development of our new customer glasshouse.

Shallowmead Nurseries has now been in business for over sixty-five years! It started out in 1947 growing fruit, veg and bedding and diversified into tomatoes in the late 1960's. At the start of 1993 the nursery took on a new direction growing conifers and shrubs which still continues today.

At Shallowmead Nurseries we propagate our plants from cuttings, seeds and division and know the source and provenance of all our stock. We can therefore reassure and guarantee that our plants are produced and grown in the New Forest and to this effect we are proud to offer the New Forest Marque.

Our aim is to continue to supply the much loved favourite plants we have always been proud of and known for, alongside an exciting range of more unusual varieties. All our plants are pot grown on site with sizes ranging from 9cm liners to 45 litre specimens. Our dedicated team of knowledgeable plantsmen and women are always on hand to offer support and advice. We take pride in our plant quality and endeavour to provide the best customer service at all times. We look forward to you visiting the nursery and seeing the changes for yourself.

We wish you every success for a good season
The Shallowmead Team

Specific requirements, selection of stock and availability.

We are licensed to propagate plants by Provar and are members of the HTA and the Association of British Conifer Growers. We have facilities to propagate a wide range of nursery stock and conifers. Please contact us if you would like to discuss any particular requirements. We welcome contract orders and are happy to grow from your own stock material if desired.

Presentation of our stock is paramount. Our staff take great care in selecting the best plants for you and make sure they are clean and pest free. The more notice given when placing an order the more time we have to ensure plants arrive in the best condition. We are more than happy to reserve available stock of any size for collection at a later date. We can picture, label, pre price and barcode any of the plants to your requirements.

If we do not stock the plant that you are looking for we are happy to try and locate it for you. If there is a variety you would like to see or you think we should be growing please let us know, we are always open minded to new ideas and customer suggestions.

We issue a monthly availability which will keep you up to date with current stock levels and seasonal availability. If you do not receive our availability please let us know.

Opening times:
Monday – Thursday 07:30 – 16:30
and Friday 07:30 – 15:30

PLANT 	POT SIZE 											HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 	
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L					
Abies koreana			•			•								E	A compact tree of conical outline, with dark green needle-like leaves white beneath, and handsome blue or purple cones often borne on young trees
Abies Nordmanniana			•						•		•			E	An evergreen conifer with narrow conical or columnar crown, with dense, glossy dark green foliage on down-swept branches. Young cones green or reddish, becoming brown
Araucaria araucana (seed)	•	•												E	A stately evergreen tree with branches clothed in sharply pointed, triangular dark green leaves. Mature plants may bear cones on the upper branches, male and female usually on separate trees
Cedrus atlantica Glauca			•			•			•	•				E	At first conical, later developing a broad crown, with spreading branches bearing silvery blue-green needles to 2.5cm, long, and ovoid cones to 9cm. Variable, and good blue-leaved forms should be sought
Cedrus brevifolia									•					E	A large tree with branches clothed in whorls of short, dark green leaves; female cones are green at first, becoming light brown as they mature
Cedrus deo. Golden Horizon									•		•			E	An evergreen, coniferous, mounding shrub with new yellow foliage that becomes yellow-green in summer
Cedrus deodara	•									•				E	An evergreen conifer making a large tree, at first conical with a drooping leading shoot, later broad-crowned. Cone broadly-ovoid
Cedrus deodara feeling Blue						•								E	A slow growing, almost prostrate conifer with bright blue-green foliage composed of soft, slender needles borne on arching branches
Cedrus libanii	•	•				•								E	An evergreen conifer making a large tree, developing a broad crown with tiered branching. Dark green needles, mostly whorled. Cones ovoid
Cham. law Pygmaea Argentea						•								E	A slow-growing dwarf conifer forming a small rounded bushy shrub with dark blue-green foliage variegated with white at the tips, especially in spring
Cham. law. Ellwoods' Gold	•	•				•								E	A slow-growing, columnar, evergreen conifer making a large shrub of compact habit. Young foliage yellow at the tips, grey-green within the bush
Cham. law. Allumii Magnifica	•	•				•								E	Blue lawsons cypress, columnar
Cham. law. Green Hedger									•					E	An evergreen conifer of dense growth and conical habit, making a medium-sized tree with rich green foliage, retaining the lowest branches well
Cham. law. Green Pillar	•	•				•				•				E	A narrowly columnar evergreen conifer making a small tree to 8m, with dense grey-green foliage on short erect brances
Cham. law. Moonsprite	•	•				•								E	A slow growing creamy yellow pyramid
Cham. law. Picks Dwarf Blue						•								E	An excellent blue/green dwarf oval shaped conifer
Cham. law. Springtime **	•	•				•								E	A dwarf, coniferous, evergreen tree with a narrow cone shape that has pale green and golden yellow foliage
Cham. law. Yellow Cascade									•					E	A lovely yellow lawson
Cham. law. Yvonne						•								E	A medium sized evergreen, coniferous tree that has a conical form with golden yellow foliage
Cham. law. Blue Nantais	•	•				•								E	A slow growing conical silvery blue conifer
Cham. law. Blue Surprise		•	•											E	An exceptional evergreen conifer with silvery blue foliage, complemented with a purplish cast during the winter months
Cham. law. Chilworth Silver	•	•												E	A slow-growing medium-sized evergreen shrub of broadly columnar habit, with dense, soft sprays of bright silvery-blue
Cham. law. Columnaris Glauca	•					•								E	An evergreen, coniferous tree that grows in a column form, covered in blue-grey foliage, that is especially bright in summer.
Cham. law. Ellwood's pillar	•	•				•								E	A compact narrow blue green pillar
Cham. law. Ellwood's Silver	•	•												E	A green form of ellwoodii with silver tips
Cham. law. Ellwoodii	•	•				•								E	A fairly slow-growing large evergreen conifer of columnar habit, with grey-green to blue-green, semi-juvenile foliage in short soft sprays
Cham. law. Golden Pottenii	•													E	A bright yellow, slow growing cone. Good variety for tubs
Cham. law. Grayswood Feather	•	•				•								E	A compact conifer of columnar habit, with soft, semi-juvenile foliage that is usually dark green, but may be yellowish on alkaline soils
Cham. law. Lemon Queen	•	•												E	A slow growing upright lemon yellow cone
Cham. law. Little Spire		•				•				•				E	A slow-growing evergreen conifer of conical habit, with dark blue-green foliage in small, dense, thick sprays

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 	
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L				
Cham. law. Minima Aurea	•	•				•							E	A dwarf evergreen conifer making a small shrub of conical habit, with golden-yellow foliage held in dense, mostly vertical sprays
Cham. law. Minima Glauca						•							E	A dwarf evergreen conifer forming a small globose shrub with dense, vertical sprays of dark blue-green foliage
Cham. law. Nana Albospica						•							E	An evergreen, coniferous shrub that is very slow growing and has an upright, oval form with green foliage and white growing tips
Cham. law. Pembury Blue	•	•				•			•				E	An evergreen conifer making a medium-sized tree of broadly conical outline, with pendulous sprays of bright silvery-blue foliage, especially when young
Cham. law. Silver Threads		•											E	A fairly slow-growing, evergreen shrub of columnar habit, with grey-green to blue-green foliage in short, soft sprays with silver speckles
Cham. law. Treasure	•	•											E	A miniature evergreen conifer with a dense, broadly upright form. Compressed foliage is a wonderful golden-yellow
Cham. law. Van Pelts Blue	•		•			•		•					E	An evergreen conifer making a narrowly conical medium-sized tree. Foliage at first blue-grey, later dark blue-green
Cham. law. Witzeliana	•	•				•			•				E	A small narrow spire of dark green foliage
Cham. obt. Fernspray Gold						•			•				E	A small shrub with fern like sprays of bright yellow foliage
Cham. obt. Nana Gracilis	•	•				•	•						E	A slow-growing evergreen conifer making a medium-sized shrub to 2m, irregularly conical in habit, with glossy dark green foliage in short, concave sprays
Cham. obt. Lycopodoides Aurea						•							E	A dwarf informal ball with gold and green mossy foliage
Cham. obt. Nana Aurea		•											E	A dwarf evergreen conifer forming a small rounded shrub with golden-yellow foliage in dense, concave sprays
Cham. obt. Nana Lutea		•				•							E	A beautiful and dense growing dwarf conifer with delicate fans of golden yellow foliage accented with pale butter yellow. The interior foliage deepens to a rich dark green which makes the gold and yellow growth stand out even more. As the plant matures it will form a gracefully layered narrow pyramid
Cham. obt. Rigid Dwarf						•							E	A dwarf dark green conifer with similar growth type to nana gracillis
Cham. pis. Boulevard	•	•											E	An evergreen conifer forming a large, dense conical shrub to 8m, with soft, silvery blue-grey foliage, often tinged purple in winter. More attractive when young
Cham. pis. Curly Tops	•	•											E	A dwarf rounded bush with steely blue curly foliage
Cham. pis. Filifera						•							E	A slow-growing evergreen conifer making a large broadly conical shrub of open habit, with gracefully weeping, cord-like, golden-yellow foliage in short tufts and longer unbranched shoots
Cham. pis. Squarrosa Lombarts						•							E	A small, upright, coniferous tree. Its soft, needle-like foliage is pale-yellow in summer, becoming greyish in winter
Cham. pis. Sungold	•	•											E	A slow-growing, mound-forming, evergreen, coniferous tree, with thin, thread-like, golden-yellow foliage
Cham. pis. Nana Aureovariegata						•							E	A dwarf bun type conifer with cream splashes on green foliage
Cham. thy. Rubicon	•	•											E	A dwarf, upright, conical shrub that has short needles that are blue-green in summer and plum purple in winter
Cham. thy. Top Point	•	•				•							E	A fully hardy small pointed evergreen conifer. Green foliage, purple in winter
Cryptomeria jap. Sekkan-Sugi	•	•											E	Very pretty variety with creamy white new foliage
Cryptomeria jap. Elegans	•	•				•							E	Soft arching green foliage. Turns bronze-purple in winter
Cryptomeria jap. Elegans Aurea	•	•				•							E	An unusual evergreen shrub that has delicate, bright green fluffy foliage in the summer months which then take on yellow hues in winter. It eventually grows to 1.8m after 10 years
Cryptomeria jap. Elegans Compacta	•	•				•							E	A bushy, evergreen conifer to 2m, with persistent juvenile foliage; leaves long and soft, turning purple in winter
Cryptomeria jap. Golden Promise						•							E	Very attractive dwarf variety with creamy coloured new foliage
Cryptomeria jap. Spiralis	•	•											E	A dense, pyramidal to columnar coniferous shrub or small tree with slightly pendulous branches and reddish peeling bark. Yellowish-green
Cup. arizonica var. glabra			•			•							E	Blue Arizona Cypress. Columnar habit with striking bluey grey foliage. Red bark
Cup. leylandii	•	•				•			•	•	✓		E	An excellent green fast growing hedge

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L			
Cup. ley. Castlewella Gold	•		•			•					✓	E	A vigorous columnar evergreen conifer to 25m, with flat sprays of golden-yellow foliage, sometimes tinged bronze
Cup. ley. Gold Rider	•		•			•			•		✓	E	Best yellow coloured leyland. Slow growing
Cup. ley. Harlequin	•					•					✓	E	Dark green with cream flecks. Fast growing variety
Cup. ley. Olives Green	•		•			•			•		✓	E	An excellent mid green fast growing hedger
Cup. ley. Pyramidalis 2001	•		•			•	•		•	•	✓	E	Dense green pyramidal form. Fast growing and makes a good dense hedge
Cup. ley. Robinsons Gold	•		•			•			•		✓	E	Attractive gold-tipped foliage, suitable for most soil types. Just as vigorous as most green leylands. Evergreen. Cold hardy
Cup. macrocarpa	•		•			•					✓	E	Monterey Cypress. Fast growing good hedging variety. Striking feathery grey/green foliage
Cup. mac. Goldcrest	•		•			•					✓	E	A narrowly columnar, evergreen conifer making a medium-sized tree with bright golden-yellow foliage in ascending sprays
Cup. sem. Stricta	•		•			•						E	A narrowly columnar, evergreen conifer with dense, dark green foliage in short sprays on erect branches
Ginkgo biloba	•		•			•						D	A deciduous tree, conical when young, becoming more irregular with age. Leaves fan-shaped, turning yellow in autumn. Unpleasantly scented dull yellow fruits in autumn on female plants
Juniperus chi. Pyramidalis	•											E	A slow-growing, dwarf columnar evergreen shrub, with mostly prickly, grey-green juvenile needles
Juniperus communis	•		•			•						E	An evergreen coniferous shrub, varying from spreading to columnar or bushy in habit, with aromatic, needle-like grey-green leaves and small ovoid green fruits ripening to black
Juniperus com. Compressa	•		•			•						E	A dwarf, upright, narrow, cone-shaped form of common juniper. It is a very slow growing evergreen shrub (1-2" per year) which typically reaches only 2-3' tall after 10 years. Awl-shaped dark blue-green foliage
Juniperus com. Gold Cone	•		•			•			•			E	An upright growing column that has a slow growing dense habit. The branches hold needles of bright golden yellow
Juniperus com. Hibernica	•		•			•		•				E	A dense evergreen conifer forming a large, columnar shrub with erect branches bearing needle-like, grey-green foliage
Juniperus com. Sentinel						•		•				E	A tiny, evergreen conifer with a very narrow, conical habit. Its foliage is prickly and grey-green
Juniperus com. Depressa Aurea						•		•				E	A slow semi prostrate evergreen that is bright gold yellow in spring
Juniperus com. Repanda	•		•			•		•				E	A prostrate evergreen shrub forming a low, dense carpet up to 2m across. Leaves needle-like, dark green, tinged bronze in winter
Juniperus Conferta	•											E	A hardy, prostrate conifer. Forms a low, dense green mat that will suppress growth of weeds, provided the plant is kept healthy
Juniperus dav. Expansa Aureospicata								•				E	A low growing conifer. Green foliage with yellow splashes
Juniperus hor. Blue Moon	•		•									E	A compact, dense slow growing blue green conifer
Juniperus hor. Glauca	•		•			•						E	An excellent blue/grey ground cover conifer
Juniperus hor. Lime Glow	•		•									E	A semi prostrate conifer, lemon and lime foliage, turning bronze in winter
Juniperus pfi. Carbery Gold	•		•			•						E	A medium size evergreen, coniferous, shrub that has spreading, graceful branches. Its foliage is bright golden-yellow
Juniperus pfi. Gold Coast	•		•									E	A low growing wide spreading golden juniper
Juniperus pfi. Sulphur Spray	•		•			•						E	A bushy, evergreen conifer making a medium-sized shrub to 2m, with strongly ascending main branches. Pale yellow foliage
Juniperus pro. Nana	•		•									E	A compact mat-forming evergreen conifer to 75cm in width, with dense, prickly, grey-green, awl-shaped leaves
Juniperus rec. Coxii	•											E	An elegant small tree with weeping branchlets
Juniperus rig. Toshio Blue	•		•			•						E	A turquoise blue slow spreading juniper
Juniperus sco. Blue arrow	•		•			•			•			E	An upright, narrowly columnar conifer with vivid steel-blue foliage
Juniperus sco. Skyrocket	•		•									E	A narrowly columnar evergreen conifer to 6m, with grey-blue foliage
Juniperus squ. Blue Carpet	•		•			•						E	An evergreen conifer, making a prostrate shrub 2m or more in spread. Foliage needle-like, bright blue-grey

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 	
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L				
Juniperus squ. Blue Spider	•		•										E	A low spreading shrub with spidery branches. Attractive steel blue foliage
Juniperus squ. Blue Star	•	•				•							E	A compact, bun-shaped evergreen conifer making a dwarf shrub of dense growth. Foliage bright blue-grey
Juniperus squ. Holger	•		•										E	A bushy evergreen conifer of irregular outline, forming a medium-sized shrub with creamy-yellow new growth which becomes blue-grey with maturity
Juniperus virginiana Grey Owl	•		•			•							E	A vigorous evergreen conifer making a medium-sized shrub of irregular, spreading bushy habit, to 4m in width, with arching main branches bearing bright blue-grey foliage and purpley fruits
Larix decidua			•			•				•			D	Common European larch. Deciduous coniferous tree with conical shape. Good Autumn colour and small cones which stay on the branches through the winter months
Larix Kaempferi	•		•			•				•			D	A vigorous deciduous conifer forming a large tree reaching up to 30m with reddish young shoots bearing whorls of light green leaves becoming yellow and orange in autumn. Cones ovoid, erect, to 3cm long, with out-curved scales
Libocedrus decurrens	•		•										E	A handsome evergreen, with a distinctive columnar form
Metasequoia glyptostroboides			•			•						•	D	A vigorous deciduous conifer making a large, narrowly conical tree to 25m, with flat sprays of narrow, pale green leaves that turn brownish-pink and yellow in autumn
Picea abies			•										E	The Norway Spruce is an evergreen conifer which can grow up to 30m. Growth is fast in the early years, up to 1m per year, but once the tree reaches a height of 20m, growth speed slows. The shoots are an orange/brown colour with glossy, dark green needles
Picea abies Acrocona						•							E	Compact, spreading variety with red cones on the tips
Picea abies Nidiformis					•								E	Popular dwarf spruce. Forms a dense low bush with branches in a series of layers which curve outwards at the tips
Picea Arnensens Blue		•											E	A fully hardy evergreen conifer. It is best planted in moist, well drained soil, and grows to an ultimate height of 0.6m - 1m in 5 - 10 years
Picea Breweriana			•										E	An evergreen conifer forming a medium-sized tree of broadly conical habit, with drooping curtains of dark green foliage, and oblong purplish cones to 10cm in length
Picea crassifolia			•										E	Qinghai spruce. Wide green needles and golden red-brown shoots
Picea gla. J. W. Daisy's White	•	•											E	Pretty dwarf green cone, with soft looking foliage. Striking white tips on new growth which turn to a rich green colour as the season progresses
Picea gla. Sanders Blue						•							E	Dense conical form Aromatic. Soft blue/green needles
Picea gla. var. albertiana Conica	•	•		•		•				•			E	An evergreen, coniferous shrub, which forms a dense, upright cone. It has deep green foliage that develops lime green new growth in late spring
Picea mariana Nana	•	•				•							E	A slow-growing evergreen conifer making a dwarf shrub of dense rounded habit, with grey-green, needle-like foliage
Picea meyerii			•										E	Soft uniform blue-green color with a medium growth rate
Picea Omorika			•										E	An evergreen conifer forming a graceful, slender tree of narrowly conical habit, with dark foliage, whitish beneath, in drooping sprays curving up at the tips
Picea orientalis										•			E	Oriental spruce. Dense pyramid shape, dark green foliage right to ground level. Purple-red cones in the spring
Picea pungens Glauca	•		•			•							E	One of the most highly prized garden conifers. Beautiful striking blue foliage
Picea pungens Globosa			•										E	Slow growing variety with short, rigid blue/grey needles
Picea pungens glauca Misty Blue			•										E	Pretty silvery blue foliage. Slow growing variety
Picea Pungens Kosta										•			E	Intensely silvery-blue conical form of the blue spruce
Picea Sitchensis	•												E	Sitka spruce: Fast growing coniferous tree, makes a great specimen
Picea wilsonii			•										E	A small tree with striking white glabrous young shoots
Pinus armandii						•		•					E	Chinese White Pine. Very Ornamental looking with fine, long green needles
Pinus clausa Choctawhatchee						•							E	Sand Pine. Very ornamental with long green needles

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L			
Pinus den. Umbraculifolia (graft)			•									E	Dome shaped variety with dark green needles. Purple cones
Pinus Greggii										•		E	Very beautiful pine. Open crown with long slender branches and bright green new needles. Yellowish cones turning brown
Pinus leuc. Compact Gem (graft)			•									E	A compact slow growing rounded pine. Long dark green needles bundled in threes
Pinus leuc. Satellit (graft)												E	A slow growing narrowly conical pine. Long dark green needles
Pinus mugo			•									E	Mountain Pine. Low growing, spready variety. Short, dark green needles
Pinus mug. Mops			•									E	Dome shaped, dwarf pine. Very hardy variety with short needles
Pinus mug. Rostrata / Uncinata	•											E	Very hardy bushy mountain pine
Pinus muricata	•											E	Bishop Pine. Green-blue needles, often seen growing in costal locations where it takes on a more contorted shape
Pinus nigra austriaca	•		•			•				•		E	Austrian pine. Good in exposed/maritime sites. Dome shaped with dark green needles on spreading branches. Dark brown-black bark. Long ovoid yellow-brown cones
Pinus nigra corsicana / maritima			•			•				•		E	Corsican/ Maritime Pine. Large tree, will grow on any site. Grey/green needles are more sparse than on the Austrian Pine. Plentiful brown cones
Pinus nigra subsp. Globosa Viridis												E	Small rounded dark green bush. Long needles
Pinus patula	•		•							•		E	Very beautiful Pine, with long graceful shiny green needles. Yellow / chestnut long conical cones
Pinus pinea	•					•						E	Umbrella / Stone Pine. Dome shaped pine with stiff green needles and shiny light brown cones
Pinus ponderosa	•		•							•	•	E	Western Yellow Pine. Very large variety with long stiff bright green needles and narrow oval cones
Pinus radiata	•		•			•				•		E	Monterey Pine. Fast growing variety with bright green needles. Long brown cones. Good by the sea
Pinus radiata Aurea (graft)			•			•						E	Dazzling yellow coloured pine. Very striking foliage especially in the winter
Pinus strobus	•		•								•	E	White Pine. Large, ornamental variety. Slender tree with upswept braches
Pinus sylvestris	•		•									E	Scotts Pine. The only native pine. Reddish bark and grey/green needles
Pinus syl. Aurea (graft)			•									E	Slow growing Scotts pine. Bright yellow foliage in winter
Pinus syl. Gold Coin												E	Flat topped low bush. Bright Gold in winter
Pinus thunbergii	•		•									E	A stout and elegant black pine. A good windbreak in poor soils.
Pinus wallichiana/excelsa/			•			•				•		E	Bhutan Pine. Beautiful tree with elegant long blue/green needles. Banana-shaped cones
Pinus yunnanensis	•		•									E	Medium sized pine, pink shoots and long weeping needles
Pseudotsuga menziesii / taxifolia	•		•			•						E	Oregon douglas fir. A very stately fast growing tree with long sweeping branches
Sequoia semp. Adpressa						•						E	A slow-growing interesting looking conifer. It has grey-green leaves which have cream tips when new.
Sequoia sempervirens	•		•			•						E	The Californian Redwood / Coast redwood, the tallest living tree. Short linear-lanceolate leaves (similar to yew) on spready branches. Small reddish-brown cones
Sequoiadendron giganteum	•					•						E	Giant Redwood / Wellingtonia. One of the largest growing trees. Upper branches are upright while lower branches hang down giving the tree a lovely conical shape
Taxodium distichum			•									D	A deciduous coniferous tree with a conical crown. Fibrous red-brown bark and soft, feathery, light green foliage turning rich yellow-brown in autumn. Small ovoid cones
Taxus baccata	•		•	•		•	•			•	✓	E	A medium-sized bushy evergreen tree with narrow, leathery, very dark green leaves arranged in two rows. Insignificant flowers on female plants followed by fleshy red fruits
Taxus bac. Aurea			•									E	Golden Yew. Ideal for hedging or as a specimen
Taxus bac. Fast. Aureomarginata	•		•									E	A large, compact evergreen shrub, columnar when young, later broadly columnar, the erect shoots with spreading, yellow-margined leaves

PLANT 	POT SIZE 											HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 		
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L						
Taxus bac. Elegantissima	•			•		•									E	Often used as a hedging plant because of its dense foliage and ability to tolerate hard pruning. Narrow needle-like green leaves, and upward pointing branches. Red berries in Autumn
Taxus bac. Fastigata	•					•									E	A large, bushy, upright evergreen shrub, columnar when young, later broader, with erect shoots bearing radially arranged, dark green leaves
Taxus bac. Fastigiata Robusta	•		•			•									E	A coniferous tree that forms a very slow growing, dense, broad column with a multi-pointed crown. It has deep green needles and small red berries in autumn
Taxus bac. Repens aurea				•											E	A low, wide-spreading evergreen shrub with narrow leathery leaves edged yellow when young, later cream
Taxus bac. Semperaurea				•											E	A large, bushy evergreen shrub, eventually wider than tall, with erect branches and dense golden-yellow foliage, tinged orange in winter
Taxus bac. Summergold	•														E	A low evergreen conifer with broadly spreading branches of yellow leaves in summer becoming green margined with yellow
Thuja occ. Amber Glow	•	•													E	A beautiful golden colour in the summer, which converts into a rich amber colour in the winter months. It forms a very compact oval shape that is ideal in a pot in the garden or even in a hanging basket
Thuja occ. Danica	•		•			•									E	A slow-growing, evergreen, dwarf coniferous shrub forming a dense, globose bush of bright green upright sprays of foliage, tinged bronze in winter
Thuja occ. Emerald / Smaragd	•		•			•				•	•				E	An evergreen conifer making a slow-growing conical shrub with erect sprays of bright green foliage
Thuja occ. Rheingold	•		•												E	A slow-growing bushy evergreen conifer making a medium-sized shrub of ovoid outline. Bronze-tinged, amber-yellow foliage, becoming more richly-coloured in winter
Thuja occ. Sunkist	•														E	A medium, slow growing, pyramidal conifer. It has dense, flattened branches of orange-yellow foliage in winter, followed by lemon yellow in spring
Thuja occ. Yellow Ribbon	•		•											✓	E	A hardy narrow golden hedge or specimen
Thuja ori. Aurea Nana	•	•													E	Dwarf slow growing conifer. Makes a small ovoid shrub with dense, erect sprays of yellow-green foliage, brightest at the tips
Thuja pli. Atrovirens	•		•			•				•	•	✓		E	An excellent fast growing aromatic glossy green hedge that clips very well and regrows from older wood	
Thuja pli. Martin	•		•			•				•	•	✓		E	A medium coniferous tree that has mid-green, neat foliage, tinged bronze in winter. Makes a great hedge variety	
Thuja pli. Rogersii	•														E	A dwarf conifer that grows very slowly. Bright gold coloured foliage
Thuja pli. Zebrina	•		•			•				•		✓		E	A vigorous, broadly conical evergreen tree with flat sprays of aromatic scale leaves, the sprays banded with creamy-yellow	
Tsuga heterophylla						•				•					E	A vigorous large evergreen tree with a conical habit. Elegantly spreading branches bearing short, flattened, dark green needles striped white beneath. Ovoid cones

Agapanthus headbourne hybrid				•								D	A clump forming perennial with blue flowers. Strap like leaves. Summer flowering
Alchemilla mollis				•								D	A herbaceous perennial forming a clump of softly hairy, light green leaves with toothed edges. Small, bright yellow flowers are borne in large sprays just above the foliage. Often seeds freely
Geranium wargrave pink				•								D	A clump-forming evergreen perennial with mid-green leaves divided into 5 lobes. Light salmon-pink flowers through the summer months
Hemoracallis stella d'oro				•								D	This bright yellow flowered daylily has a long blooming period, producing ruffled flowers over four or five months. Each flower opens for one day
Iris Action Front				•								D	A hardy, large bulbous perennial with strong, green, upright foliage and fragrant copper-red and orange flowers in late spring to early summer
Iris jane philips				•								D	A hardy, large bulbous perennial with strong, greyish foliage and light blue scented flowers in early summer, the falls whitish with darker veins at the base and a white beard
Iris Sable				•								D	A clump-forming perennial with strap-shaped leaves and deep-purple flowers in early summer
Sedum Herbstfreude				•								D	A herbaceous perennial forming a clump to 60cm in height, with fleshy, oblong, glaucous green leaves and large flat terminal clusters of stary flowers in early autumn. The flowers open from greenish-pink buds

Acorus gra. Golden Delight	•	•										E	Striking dwarf golden yellow foliage, Evergreen, will tolerate shade
Alopecurus glauca	•	•										SE	Blue Foxtail grass. Soft silky flower spikes (25cm tall)
Briza media Limouzi		•										E	Matt forming grass, native to the UK. Large purplish flower heads which hang from long stems. Bluish-green leaves
Carex Buchananii	•		•			•						E	A tufted perennial to 75cm, with narrow, evergreen, orange-brown, arching leaves with curling tips, and brown flowering spikes in late summer
Carex comans Amazon Mist	•	•										E	A graceful ornamental grass with arching silver white evergreen foliage
Carex com. Bronze	•	•										E	An evergreen perennial to 30cm, forming a dense tuft of narrowly linear, reddish-brown leaves, with inconspicuous brown flower spikes in late summer
Carex com. Frosted Curls	•	•										E	An evergreen grass that forms rounded clusters of silvery green narrow tufted leaves
Carex morrowii Silver Sceptre	•	•										E	A compact, tufted sedge with narrow leaves striped with creamy-white, with dark brown flower spikes
Carex mor. Fisher's Form	•	•										E	An evergreen ornamental grass forming compact tufts of long, narrow, arching, cream and green variegated leaves
Carex mor. Variegata	•	•										SE	A semi-evergreen sedge forming a spreading clump of broadly linear, grass-like leaves which are bright green, edged and striped with creamy-white; small brown flower-spikes open before the new leaves in early spring
Carex oshimensis Evergold	•	•										E	An evergreen sedge forming a clump to 30cm in height, the narrow arching leaves each with a central yellow stripe. Flower spikes, brown, inconspicuous
Carex phyllocephala Sparkler	•		•									SE	A semi-evergreen sedge with whorled, strap-like leaves that are light-green with cream margins on an upright purple stem. In summer it bears a central cluster of brush-like flowers
Deschampsia ces. Northern Lights Green	•											SE	Clump forming variety with narrow green leaves. Ideal for border edges or in mixed tubs
Dianella rev. Little Rev	•	•			•							E	A very hardy plant with blue grey foliage and pretty blue star like flowers
Dianella tasmanica	•	•										E	An evergreen perennial to 1.2m tall, with tough, grass-like leaves and branched panicles of violet-blue flowers 2cm wide, with prominent yellow stamens, followed by glossy violet-blue berries
Elymus magellanicus	•	•										D	A tufted deciduous grass to 15cm in height, forming a dense clump of vivid blue linear leaves to 5cm in length, with small, lax flower spikes in summer
Festuca glauca Azurit		•										E	An intensive steel blue hair like grass
Festuca gla. Elijah Blue	•	•										SE	A clumping grass with deep sea blue foliage
Festuca gla. Golden Toupee	•	•										SE	A compact, mound-forming grass with needle-like leaves that are bright yellow in spring, later becoming grey-green
Festuca gla. Blue Fox	•	•										SE	Ornamental grass forming a compact tuft to 20cm, of brilliant steel-blue, needle-like foliage, with insignificant narrow panicles of flowers on stems to 35cm
Helictotrichon sempervirens	•	•										E	A dense tufted evergreen grass with rather rigid blue-grey leaves to 23cm in length. Small, straw-coloured spikelets are borne in large open panicles on erect stems to 1.4m in height
Imperata cylindrica Red Baron	•	•										D	A deciduous grass forming a loose clump of erect, linear green leaves with deep red tips, and arrow silvery flower panicles in late summer
Libertia Formosa	•	•										E	A robust evergreen plant forming a mass of narrowly sword-shaped, leathery leaves; bowl-shaped white flowers 3cm wide are borne in clusters on stiff stems in late spring and early summer
Libertia peregrinans	•	•										E	A compact evergreen plant to 60cm tall, making a clump of narrow leaves, often orange-tinted, with short stems bearing clusters of bowl-shaped white flowers among the leaves in late spring and early summer
Miscanthus Purpurascens	•	•										D	A tall deciduous grass with long, narrow, purple-tinged leaves and pinkish, silky flower sprays in late summer, soon becoming silvery and turning to fawn in autumn and winter
Miscanthus sin. Morning Light	•	•										D	A compact deciduous perennial with narrow leaves finely edged with white, and pink-tinged panicles of flowers in autumn

PLANT 	POT SIZE 											HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 		
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L						
Miscanthus sin. Strictus	•		•												D	A compact, clump-forming deciduous grass with erect, rather spiky foliage cross-banded with yellow, and crinkly silver flowering plumes to 2m tall in mid autumn
Miscanthus sin. Variegatus	•	•													D	A clump-forming deciduous grass to 2m tall, with narrow arching leaves striped with white, and sometimes sparse, reddish flower heads in early autumn
Miscanthus sin. Kleine Silberspinne	•	•													D	A compact clump of arching, narrow leaves with white midribs, and feathery reddish flower heads to 1.2m tall in late summer, soon turning pale brown and lasting well into winter
Miscanthus sin. Yakushima Dwarf	•	•													D	A compact deciduous grass to 80cm tall, forming a clump of narrow leaves, with feathery pale brown flower heads in mid autumn
Miscanthus sin. Zebrinus	•	•													D	A deciduous grass with arching, linear bright green leaves bearing transverse bands of cream or pale yellow
Molinia Edith Dudzus	•		•												D	A compact, tufted, deciduous perennial grass forming dense clumps of erect to slightly arching, flat, linear, mid-green leaves and dense, narrow panicles of dark purple flower spikelets on dark purple-red stems in summer
Nassella trichotoma	•	•													E	Highly attractive perennial grass forming dense tussocks of pale green and pink spikelets
Ophiogon planiscapus Nigrescens	•	•													E	Dense tufts of arching, narrowly strap-shaped, leathery black leaves 20-30cm in length. Racemes of small purplish flowers, followed by glossy black berries
Panicum virgatum Heavy Metal	•	•													D	Deciduous, metallic blue leaved variety. Elegant, airy pink flowers up to 80cm
Panicum vir. Shenandoah	•		•												D	In early summer, its leaf blades are tipped in red, and by autumn, the entire leaf is a rich burgundy color, topped by pink plumes
Pennisetum Hamelin	•														D	A clump-forming perennial grass with arching linear leaves and cylindrical panicles of bristly, purple-tinged spikelets in late summer
Pennisetum orientale	•	•													D	A clump-forming tufted perennial grass to 60cm in height, with arching, linear leaves and hairy, narrow, grey-mauve panicles 10-14cm in length, like soft bottle-brushes
Pennisetum Red Bunny Tails	•														D	A clumping warm season grass. It has green foliage with beautiful red foxtail blooms that become buff-white with maturity.
Schizachyrium sco. Cairo					•										D	Striking colourful grey-green grass. Takes on a blueish hue when in a sunny position
Scirpus / Isolepis Cernua	•	•													E	Fibre Optic grass. Slender, cylindrical, bright green stems and cream to greenish brown flowers borne on the end of stems in early to midsummer
Stipa arundinacea	•	•													E	A tall, evergreen grass, with arching, green leaves turning orange-brown in winter and panicles of purple-green flower spikelets that emerge in summer
Stipa gigantea	•		•												E	A robust tufted evergreen grass to 2m, with arching linear green leaves and large panicles of oat-like purplish flowers which ripen to gold
Stipa tenuissima	•	•													D	A deciduous grass to 60cm, forming a compact upright tuft of thread-like leaves, with narrow, arching, feathery flowering panicles in summer
Unciniata rubra	•	•													E	A tufted, evergreen, perennial sedge to 30cm, with glossy reddish-green or red-brown leaves and dark brown to black flower spikes in summer

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 	
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L				
Asplenium sco. Cristata		•											E	A fern with the broad flat leafed fronds of all hart's tongue ferns, but with highly crested tips. Perfect for adding some foliage interest to a cool, shady area
Cyrtomium Falcatum		•											SE	A tender to half-hardy, evergreen or semi-evergreen fern with glossy, spreading, dark green fronds with thick, leathery, holly-like pinnae
Dryopteris Cycadina		•											SE	A semi-evergreen, rosette-forming fern of neat appearance, the spreading fronds, borne on scaly stalks, simply pinnate with pinnae evenly toothed or lobed
Dryopteris Erythrosora		•											SE	A semi-evergreen fern to 75cm, forming a compact clump of broadly ovate, bipinnatifid fronds, often coppery-pink when young. Spore-heaps also often pink
Dryopteris Sieboldii		•											E	A striking Japanese fern with pale green evergreen foliage. The foliage is boldly cut with two to three pairs and a long terminal pinnae. It resembles our Hart's Tongue Fern
Osmunda Regalis (Royal Fern)		•											D	A robust deciduous fern forming a large clump of bipinnate fronds to 2.5m in height, bearing rusty-brown spore-bearing pinnae at the tips; foliage turns attractive red-brown in autumn
Polystichum Herrenhausen		•											E	An evergreen fern with soft spreading dark green fronds arranged in shuttlecocks
Polystichum Plumosum Densum		•											E	Arguably the most handsome of all Polystichum setiferum cultivars, the Mossy Soft Shield Fern has plenty to offer. It has compact growth habit with upright fronds, each of which are finely divided with overlapping leaflets
Polystichum Rigens		•											E	An evergreen fern with mid-green fronds, slightly prickly to the touch. It does best in moist, humus-rich, well drained soil in partial or full shade. Good for ground cover or underplanting
Polystichum Setiferum Congestum		•											E	A dwarf evergreen fern with dense, upright fronds and overlapping pinnae
Polystichum Tsus-Simense		•											E	A small tufted evergreen fern to 45cm, with erect, narrowly lance-shaped, bipinnate fronds, with slender-pointed apex and pinnae

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 	
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L				
Actinidia kolomikta	•		•			•							SE	A large vigorous deciduous climber with twining stems. Leaves ovate, those of mature plants tipped with silver, later pink. Flowers white, male and female on separate plants. Grown for foliage effect
Akebia quinata	•		•			•							D	A climber with bright green leaves composed of five elliptic or obovate leaflets notched at the tips. Fragrant reddish-purple flowers, with larger females at the base of the raceme, are sometimes followed by purple fruits up to 10cm in length
Billardiera longiflora	•	•											E	Deliciously scented, small bell shaped green yellow-flowers are sometimes purple tinged and produced in summer. Electric purple blue fruits follow in the autumn and winter, and seem surprisingly large considering the size of the narrow leaves and stems
Campsis radicans flava	•												D	A large, vigorous deciduous climber with strongly toothed leaflets and trumpet-shaped, deep yellow flowers to 8cm in length
Campsis x tag. Madame Galen	•												D	A large, strong-growing deciduous climber with aerial roots. Leaves pinnate, with up to 15 small leaflets. Flowers tubular, reddish-orange, with limb to 8cm in width
Clematis cirrhosa	•	•			•								E	Evergreen climber with divided, lobed and toothed glossy dark green leaves tinged bronze in winter. Pale cream flowers and good silky seed heads
Clematis cir. Freckles						•							E	Evergreen climber with divided, lobed and toothed glossy dark green leaves tinged bronze in winter. Flowers 5cm in width, pale yellow heavily speckled with maroon. Good silky seed heads
Clematis cir. Lansdowne Gem	•												E	Evergreen climber with toothed, mid-green leaves, flushed bronze in winter, and in mid- to late winter, open bell-shaped, deep red flowers, paler on the reverse. Good silky seed heads
Clematis cir. Wisley Cream						•							E	Evergreen climber with divided, lobed and toothed glossy dark green leaves which are bronze in winter, and nodding pale cream flowers to 8cm across, in late autumn, winter or early spring. Good silky seedheads
Clematis armandii	•	•											E	A large, vigorous evergreen climber with leathery, dark glossy green trifoliate leaves up to 15cm long. Single fragrant white flowers
Clematis arm. Apple Blossom	•	•											E	One of the best evergreen climbing clematis with majestic lance shaped waxy leaves. Strong white scented flowers in early spring
Clematis arm. Jefferies	•	•											E	Vigorous habit with lance shaped waxy green leaves and fragrant white flowers in early spring
Clematis arm. Little White Charm	•	•											E	A vigorous, evergreen climber with leaves divided into three leathery, glossy, dark green leaflets. Clusters of single, strongly fragrant, star-shaped, creamy-white flowers bloom in early to mid-spring
Clematis arm. Snowdrift	•	•											E	This vigorous, evergreen clematis produces a profusion of scented, star-shaped pure white flowers from March to April
Decumaria sinensis	•		•			•							E	A rare hardy climber with delicious honey scented flowers
Fremontodendron California Glory	•		•			•		•					E	A large, vigorous evergreen shrub to 6m, with rounded, three-lobed dark green leaves and bright deep yellow flowers borne from late spring to early autumn
Hedera helix Golden Kolibri	•												E	A climbing ivy with gold leaves splashed lime and dark green
Jasminium off. Aureum	•					•							D	A vigorous, twining, woody, deciduous climber bearing pinnate mid-green leaves, boldly marked yellow. Clusters of fragrant, white flowers bloom from summer into early autumn
Lonicera etrusca	•		•			•							D	A strong-growing deciduous climber with grey-green foliage, and clusters of fragrant, tubular cream flowers that age to deep yellow
Lonicera etrusca Michael Rosse	•												D	A lovely form of this easy to grow twining climber with pale yellow tubular flowers which deepen in colour with age
Lonicera hildebrandiana	•												E	An evergreen climber with spectacular colour from yellow and white tubular flowers
Lonicera Serotina	•	•											D	A vigorous twining large deciduous shrub with dark green, oval leaves. Fragrant flowers, deep red-purple outside and yellow within. Red berries

PLANT 	POT SIZE 											HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION

Lonicera sim Delavayi	•		•												SE	A semi-evergreen shrub of scandent habit, with ovate leaves white-hairy beneath, and fragrant tubular-funnel-shaped white flowers 5-6cm in length, ageing to yellow, in early autumn, followed by black berries
Rosa Goldfinch	•	•				•									D	A rambling rose that is almost free of thorns. It has glossy green leaves and in early summer is smothered in semi-double, fragrant, apricot-yellow flowers that fade to cream
Rosa banksiae Lutea	•	•													D	A large and vigorous, thornless climbing rose with small, smooth-edged leaves and large clusters of pale yellow, rosette-like double flowers
Schizophragma Moonlight	•														D	Ovate silver-green leaves with deep-green veining. Creamy coloured flowers in late spring/early summer
Schizophragma Integrifolium	•		•												D	A vigorous, large deciduous shrub climbing by aerial roots, with slender, ovate leaves. Flowers inconspicuous but surrounded by showy white ovate bracts
Schizophragma Roseum	•		•												D	A vigorous woody climber with broadly ovate or heart-shaped leaves and flattened clusters of small creamy-white flowers surrounded by showy ovate, white bracts which age to rosy pink
Trachelospermum jasminoides	•		•		•										E	A vigorous medium-sized evergreen twining woody climber with glossy dark green, oval leaves often turning deep red in winter; clusters of very fragrant white flowers
Vitis Brant	•														D	A large deciduous climber with deeply lobed leaves turning deep red in autumn. Insignificant flowers followed by small black grapes
Vitis vin. Purpurea	•		•			•									D	A vigorous large tendril-climber with deeply-lobed leaves purple in summer, deepening in late summer and crimson-tinted in autumn. Insignificant greenish flowers followed by deep purple grapes
Wisteria flo. Black Dragon						•									D	A deciduous vine with green, compound leaves. In late spring it has long racemes of beautiful drooping flowers
Wisteria flo. Honbeni						•									D	A large, strong-growing deciduous, twining climber with dark green, pinnate leaves. Fragrant, pale rose flowers tipped with purple

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 	
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L				
Abelia floribunda	•		•										SE	A bushy evergreen shrub, producing masses of bright cerise-pink tubular flowers in summer against a background of glossy green leaves. It is not fully hardy, but copes with frosty conditions if planted in a sheltered, sunny position
Abelia grandiflora	•		•			•							SE	A medium-sized semi-evergreen shrub with arching branches, bearing small glossy oval leaves and clusters of pale pink, slightly fragrant flowers over a long period from mid-summer
Abelia Triflora	•		•			•							SE	A large shrub or tree with small dark green leaves and in summer produces masses of highly fragrant pink tinged white flowers which are carried in clusters at the tips
Abutilon Kentish bell	•		•										SE	A compact, semi-evergreen shrub with arching shoots and three-lobed, triangular-ovate leaves. Flowers bell-shaped, with orange-yellow petals and dark red calyx
Acacia baileyana	•		•			•							E	A large, graceful evergreen shrub to 6m in height, with fern-like, silvery-grey leaves and axillary racemes of small, globose yellow flower heads in winter and spring
Acacia baileyana Purpurea	•												E	Small tree or large shrub with graceful, fern-like leaves tinted purple and deep purple-red young shoots. From winter to spring, fluffy yellow flowers are produced
Acacia dealbata	•		•			•							E	An evergreen shrub with finely divided grey-green leaves and fragrant yellow flower heads, borne in terminal clusters
Acacia pravissima			•			•							E	An evergreen shrub with crowded, triangular leaves and racemes of small rich yellow flower-heads in late winter and early spring
Acca sellowiana	•		•										E	An evergreen shrub with grey-green leaves densely white-felted on the underside. In summer, flowers with four red petals, white on the outside, appear in the leaf axils; occasionally produces edible, red-flushed green fruit
Acer campestre		•											D	A medium-sized deciduous tree with a compact bushy crown. Leaves with 5 blunt lobes, turning yellow or red in the autumn. Flowers small, green, forming typical winged maple fruits
Acer pal. Atropurpureum						•							D	A small tree of bushy habit, with deep purple leaves divided into about 7 lobes, and becoming red in autumn. Inconspicuous red-purple flowers in spring may be followed by winged, purple fruits
Acer pal. Atropurpureum Dissectum						•							D	A slow-growing shrub with a broadly arching habit, with deep purple, lobed and finely toothed leaves turning orange in autumn
Acer pal. Orange Dream						•							D	Beautiful golden yellow-orange spring growth, a limey-green for the summer, turning a stunning orange gold in the autumn. A slow growing deciduous Acer, making it ideal for small gardens or large containers
Agave Americana Variegata			•			•							E	An evergreen perennial forming handsome 1.5m tall rosettes of spiny-edged, grey-green leaves with longitudinal creamy-white stripes
Amomyrtus luma						•							E	A large shrub with fragrant cream flowers and edible black berries
Anisodonteia capensis			•										SE	A tender, compact, erect, evergreen to semi-evergreen fern with hairy stems. Toothed, ovate to triangular, mid-green leaves and, from summer to autumn, veined, pink flowers borne singly or in small racemes
Arbutus une. Atlantic	•		•			•							E	A compact, dense, free-flowering evergreen shrub or small tree. Oval, toothed, glossy, dark green leaves and, in autumn, urn-shaped, cream flowers bloom whilst strawberry-like, edible fruit from the previous year's flowers ripen
Artemisia absinthium 'Lambrook Mist'	•												E	Shrubby evergreen perennial with delicate grey aromatic foliage and pale yellow flowers in summer
Astelia Silver Spear	•		•										E	A hardy, clump-forming perennial with long, silvery spear shaped leaves and occasional yellow flowers from female plants followed by orange berries
Astelia nervosa Westland		•											E	Compact, architectural shrub with silver-bronze spear shaped leaves
Aster thomsonii	•												D	Compact, late summer flowering variety. Green lobed leaves, purple-blue flower with orange centre
Aucuba jap. Crotonifolia						•		•					E	A compact medium-sized evergreen shrub with large leathery leaves heavily spotted and blotched with deep yellow. Flowers small, purple, female, followed by bright red berries when pollinated
Aucuba jap. Variegata	•		•			•							E	Evergreen shrubs with variegated, leathery leaves, 'Variegata' is a female cultivar with glossy leaves heavily spotted with creamy-yellow; small purple flowers are followed by glossy bright red berries if a male clone is nearby

PLANT 	POT SIZE 											HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 		
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L						
Azara lanceolata	•		•												E	A elegant evergreen shrub. It has attractive glossy, narrowly oval to lance-shaped, bright green leaves, which form a serrated foliage. Bears abundance of scented tiny showy pale yellow flowers. Flowers are followed by creamy white berries
Azara microphylla	•		•												E	A large evergreen shrub or small tree, with very small glossy dark green leaves. Flowers small, deep yellow, vanilla-scented, in small clusters from late spring
Azara serrata	•		•			•									E	An evergreen shrub with glossy, oval leaves and dense clusters of fragrant yellow flowers in summer, and white berries
Berberis Atropurpurea Nana	•		•												D	A deciduous dwarf shrub to 60cm, compact and bushy in habit, with spiny stems bearing purplish-red, obovate leaves, becoming brighter in autumn. Flowers small, pale yellow, followed by deep red berries
Berberis darwinii	•	•													E	A dense, medium-sized evergreen shrub, with dark glossy green, broadly oblong, sparsely-spined leaves, and drooping racemes of rich orange flowers, tinged red in bud, followed by blue-black berries
Berberis thu. Rose Glow	•		•											✓	D	A small, spiny deciduous shrub, with young leaves purple, irregularly marbled with pink and white, later purple all over. Flowers sparse, small, yellow, followed by red berries
Berberis thunbergii Aurea	•	•													D	A bushy deciduous shrub, with rounded leaves opening bright yellow in spring and early summer, becoming yellowish-green later; small, red-tinged pale yellow flowers in spring are followed by shiny deep red berries
Berberis wilsoniae	•		•											✓	D	Dense, mound forming, very spiky shrub with spreading arching branches. Lovely autumn colour. Coral coloured berries
Berberis x ottawensis Superba	•		•												D	A vigorous spiny medium-sized deciduous shrub with lax, arching branches. Leaves broadly oval, deep red-purple, brighter red in autumn. Flowers small, light yellow, berries bright red
Brachyglottis / Senecio Sunshine	•		•												E	Popular shrub with silver grey leaves and bright yellow daisy like flowers
Buddleja colvilei	•		•												D	An arching shrub with large red purple flowers and felty leaves
Buddleja dav. Royal Red	•		•			•									D	A large deciduous shrub with arching branches of lance-shaped leaves, whitish beneath, and long panicles of rich purple-red, scented flowers
Buddleja dav. Black Knight	•		•			•									D	Deep purple-blue, almost black, flowers in elongated clusters on arching branches to 10 feet tall if not cut back, and half that size if cut back. The blooms come from early summer to first frost. The foliage is willow-like and grayish green
Buddleja davidii Buzz	•		•												D	This gorgeous compact Buddleja reaches a mature size of 3 to 5 feet high and about 3 feet wide, perfect for large containers and smaller gardens. And it responds well to shaping. Its elegant deep purple plumes stand out all over the upright, semi-bushy habit of attractive medium green-greyis
Buddleja globosa	•		•												SE	A large semi-evergreen or deciduous shrub to 5m, with dark green leaves and dense globose heads 2cm across of sweet-scented bright orange-yellow flowers in loose clusters at branch tips in early summer
Buddleja Salmon Spheres	•		•												D	A summer flowering shrub, producing pink-flushed-yellow flowers in terminal clusters of small globose heads; the foliage is felted and grey-green
Buddleja Salviifolia	•		•												SE	A semi-evergreen shrub of arching habit, with finely wrinkled, lance-shaped, grey-green leaves and narrow panicles of small pale mauve flowers, orange in the throat, in autumn and early winter
Buddleja Silver Anniversary	•		•												SE	A semi-evergreen shrub of arching habit. Lance shaped, silver woolly silver/green leaves. White fragrant flowers with a yellow centre
Buddleja x Weyeriana	•		•												D	A large deciduous shrub with arching branches bearing narrow, dark green leaves and rounded clusters of sweetly scented orange-yellow flowers in summer and autumn
Buxus mic. Faulkner				•										✓	E	A low-spreading evergreen shrub which grows approximately 1.2 metres high x 1.5 metres wide. It is very hardy with shiny emerald green leaves and is excellent for hedging or topiary
Buxus mic. Green Mountain				•										✓	E	An upright, oval, dark green boxwood that grows to about 3 feet high and wide. It flowers in spring, but it is grown for its handsome foliage. Use as hedging or topiary, or in a border
Buxus mic. Justin Brouwers	•	•												✓	E	One of the best compact, mounding to rounded cultivars on the market. It is sun-tolerant. Use for low hedges, edges, parterres, or knot gardens. It responds very well to pruning. Small leaves with excellent deep-green winter color

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION 	
	9cm	2L	3L	5L	7.5L	10L	15L	20	25L	45L				
Buxus sempervirens	•	•		•								✓	E	A large, slow-growing evergreen shrub to 5m or more, compact in habit, with small, glossy oval or oblong leaves, and small, yellowish flowers in the leaf axils
Buxus semp. Marginata	•			•								✓	E	A dwarf, compact shrub with showy cream variegation
Buxus semp. Elegantissima	•	•		•								✓	E	A medium-sized evergreen shrub with dense foliage and compact rounded habit. Leaves narrowly ovate or oblong, with narrow creamy-white margins, sometimes distorted
Buxus semp. Blauer Heinz	•											✓	E	A dwarf habit and extremely compact growth. It is well suited for use as a low border, small hedge or in rockeries. An attractive plant all year round
Buxus semp. Intermediate	•	•		•								✓	E	A dwarf box excellent for edging and topiary
Buxus Semp. Latifolia Maculata	•											✓	E	A compact medium-sized evergreen shrub with leathery leaves 2-3cm in length, bright yellow when young, becoming green, blotched with dull yellow in summer
Buxus semp. Memorial	•											✓	E	A very dark green dense ovate form
Buxus semp. Suffruticosa	•											✓	E	A small, slow-growing, compact evergreen shrub, very dwarf if trimmed regularly. Leaves 1-2cm in length, ovate, fairly glossy
Buxus sin. Tide Hill	•			•								✓	E	This rugged little boxwood has soft-textured oval leaves that hold their bright green color through very severe winters. It has a broad, spreading habit that is much less formal than that of other boxwoods
Callicarpa bod var. gir. Profusion	•		•			•			•				D	A medium-sized deciduous shrub of upright habit, to 3m in height. Leaves 5-12cm in length, lanceolate, purplish when young, turning rosy-pink in autumn. Flowers small, lilac; berries 4mm, violet-purple, in compact clusters
Callistemon cit. Red Clusters	•		•			•							E	A vigorous, rounded, evergreen shrub with deep green, lanceolate leaves with pink new shoots and masses of crimson red flower spikes that have gold anthers in spring and autumn
Callistemon Pallidus	•												E	A semi-hardy, erect to spreading evergreen shrub with downy shoots, linear dark green or grey-green leaves and spikes of cream to greenish flowers in late spring to midsummer
Callistemon Rigidus	•												E	A bushy shrub with narrowly dark green leaves to 15cm long, and bright deep red flowers in spikes to 10cm long in summer
Callistemon Rugulosus	•												E	A shrub that has stiff, sharply pointed leaves which are 3 to 5 cm long and 4 to 7 mm wide. The flower spikes are 5 to 8 cm in length and about 4 to 5 cm in diameter the stamens are rosy-red with yellow anthers imparting a golden-speckled appearance
Callistemon vim. Little John	•		•										E	An evergreen small shrub that typically forms a 3 to 5 foot tall by 6 to 8 foot wide rounded mound with narrow 3 inch long bluish gray-green leaves and flowers of blood-red bristle-like stamens that appear throughout the year, but peak bloom time is early summer to autumn
Calycanthus floridus			•										D	This deciduous shrub has a dense, rounded habit, growing 6 to 9 feet tall and as wide. Its unusual, waterlily-like, fragrant flowers combine the scent of strawberries, banana, and pineapple. Flowers appear in May and continuing into June and July. The dark green leaves and bark release a clove or camphor-like scent when crushed
Camellia cus. Cornish Snow	•												E	A medium-sized shrub of lax, erect growth, with narrowly ovate, dark green leaves, the young growth tinted bronze. Single white flowers 4-5cm in width, tinged pink on reverse, open from midwinter
Camellia Elizabeth de Rothschild	•												E	A vigorous, upright shrub with cup-shaped, semi-double, reddish-pink flowers growing amongst glossy foliage
Camellia jap. Margaret Davis	•												E	An upright, evergreen shrub with glossy, dark-green leaves. In late winter until mid-spring it bears ruffled, creamy-white petals edged in raspberry
Camellia jap. Noblissima	•												E	An upright, vigorous, evergreen shrub with glossy, dark green leaves and double white flowers with pale yellow shading in mid-winter to early spring
Camellia jap. Silver Anniversary	•												E	A vigorous, upright, evergreen shrub with glossy, dark green leaves and white, semi-double flowers with yellow centres blooming in late winter and early spring
Camellia jap. Sylva	•												E	A vigorous upright shrub with large, funnel-shaped, single crimson flowers with conspicuous yellow stamens in early spring
Camellia ret. Inspiration	•												E	A large compact shrub of erect habit. Flowers 10-12cm in width, semi-double deep rose-pink

Camellia sansanqua blush	•												E	Pretty single white flowers with a pink flush on the edge
Camellia sas. Plantation Pink	•												E	Scented pink flowers and yellow anthers
Camellia x wil Anticipation	•												E	A large shrub with double, deep rose-pink flowers
Camellia x wil. Debbie	•												E	A large, vigorous evergreen shrub of open growth, with peony-form double, rose-pink flowers to 12cm in width
Camellia x wil. Donation	•												E	A strong-growing, large shrub to 5m in height, of upright growth with semi-double, light rose-pink flowers to 12cm in width in late winter and early spring
Camellia x wil. Jury's Yellow	•												E	A compact and erect evergreen shrub with medium-sized, anemone-form white flowers with conspicuous yellow petaloids in the centre
Camellia x wil. Ruby Wedding	•												E	A vigorous, upright, dense, evergreen shrub with glossy, elliptic, dark green leaves and, in early spring, double, peony-form bright red flowers with white speckled centres
Canna Soudan			•										D	A medium sized Italian Group cultivar; dark foliage, large, ovoid shaped, branching habit; flowers are open, self-coloured orange, stamens are large, edges lightly frilled, fully self-cleaning, average bloomer, blooms open in the early morning
Canna Perkeo			•										D	Rosy pink flowers with leathery, green foliage. Does not reach full height if planted in containers. Perfect for mixed plantings
Carpenteria cal. Ladham's Variety	•		•			•							E	Evergreen shrub which needs a sheltered, warm position in full sun or part shade. White cistus-like flowers all summer and dark green lanceolate leaves
Carpenteria cal. Bodnant	•		•			•		•					E	A frost hardy evergreen shrub. It is best planted in well-drained soil, and grows to an ultimate height of 1.6m - 2.5m in 5 - 10 years.
Caryopteris x clan. First Choice	•												D	A compact deciduous shrub with bluntly toothed, grey-green leaves paler beneath, and clusters of vivid blue flowers opening from deep indigo-blue buds in late summer
Caryopteris x clan. Heavenly Blue	•		•										D	A compact, upright shrub to 1m tall, with arching branches bearing toothed, grey-green leaves and clusters of small dark blue flowers in the leaf axils in late summer and early autumn
Ceanothus arb. Trewithin Blue	•		•			•							E	A large vigorous evergreen spreading shrub to 6m in height, with broadly oval or rounded leaves to 8cm in length, and slightly fragrant deep blue flowers in panicles to 12cm in length
Ceanothus Autumnal Blue	•		•			•							E	A bushy, medium-sized evergreen shrub to 3m, with glossy dark green, 3-veined ovate leaves and compact oblong trusses of mid-blue flowers from late summer
Ceanothus Blue Mound	•		•										E	A bushy medium-sized evergreen shrub of broad, dense habit, with glossy oblong-ovate leaves and compact heads of small bright blue flowers in late spring
Ceanothus Blue Sapphire **	•												E	A compact, spreading, evergreen shrub with arching stems bearing ovate, glossy, wavy-margined, dark purple- to bronze-flushed, dark green leaves, nearly black in winter, and panicles of dark blue flowers in late spring and early summer
Ceanothus gloriosus Emily Brown	•												E	A small scale groundcover plant about one to two feet high and four to six feet across. The small holly leaves are dark green with dark red-brown stems. Emily Browns dark blue flowers are at its best near the coast, needs some shade inland
Ceanothus Italien skies	•												E	A spreading medium-sized evergreen shrub with small, glossy dark green leaves and small bright blue flowers in compact conical clusters in late spring

Ceanothus Puget Blue	•													E	A medium-sized evergreen shrub of upright habit, with small, dark green, narrow leaves. Flowers deep rich blue in conical or oblong panicles, in late spring and early summer
Ceanothus Skylark	•		•			•								E	A compact evergreen shrub with finely toothed, glossy dark green leaves and clusters of deep blue flowers in early summer
Ceanothus thy. Snow Flurry	•													E	Glossy green leaves with pure white flowers
Ceanothus thy. var. repens	•		•											E	A small, but vigorous evergreen shrub of low, spreading habit, but much taller when grown against a wall. Leaves ovate, glossy dark green. Flowers light blue, in compact panicles in spring and early summer
Ceanothus Yankee point	•													E	A vigorous evergreen shrub of wide, spreading habit, with small glossy dark green leaves and abundant deep blue flowers in late spring and early summer
Ceratostigma willmottianum	•	•												D	A small deciduous shrub with lanceolate leaves to 5cm in length, turning red in autumn. Flowers 2.5cm in width, rich blue, in dense terminal clusters
Chaenomeles speciosa Nivalis	•		•											D	A spreading shrub of tangled growth, with spiny branches bearing simple, oval leaves and pure white flowers 4cm wide in spring
Choisya ter. Sundance **	•		•		•									E	A medium-sized evergreen shrub of rounded habit with glossy bright yellow, ternate leaves and small clusters of fragrant white flowers
Choisya ternata	•		•		•									E	A rounded, medium-sized bushy evergreen shrub, with dark, glossy green leaves divided into three broad leaflets. Flowers pure white, scented, often appearing fitfully into winter
Choisya x dew. Goldfingers **	•		•		•									E	A bushy rounded evergreen shrub with narrowly elliptic, bright yellow leaves (greener where shaded) and orange-scented white flowers in late spring and early summer
Choisya x dew. Aztec Pearl	•		•		•									E	A small evergreen shrub of open rounded habit, with bright green leaves composed of 3-5 slender leaflets. Flowers to 3cm in width, fragrant, white, tinged pink in bud, in small clusters in late spring, and again in autumn
Cistus ladanifer	•	•												D	An evergreen shrub of loose, open habit with very sticky, narrow, aromatic leaves, dark green above, grey beneath. Flowers to 10cm in width, white with a deep red blotch at the base of each petal
Cistus x arg. Peggy Sammons	•	•												D	A small evergreen shrub of compact upright habit, with grey-green, ovate leaves and pale pink flowers 5cm in width
Cistus x lax. Snow White	•		•											D	A tender, upright to rounded, evergreen shrub with ovate to lance-shaped, veined, sticky, grey-green leaves and, in summer, large, red-flushed buds opening to saucer-shaped, white flowers with golden-yellow centres
Cistus x len. Grayswood Pink	•		•											D	A spreading evergreen shrub with grey-green, ovate leaves and light pink, white-centred flowers 2.5cm across
Cistus x purpureus	•		•											D	A small, bushy evergreen shrub with narrow, dull green leaves. Flowers to 8cm in width, petals purplish-pink with large deep red blotch at the base
Clerodenderon Fargesii			•											D	A vigorous deciduous shrub to 6m, with large ovate leaves and highly fragrant white flowers, borne in green calyces which turn crimson as the turquoise berries mature
Clethra alnifolia Hummingbird	•		•											D	An intensely fragrant shrub with very floriferous spikes of white flowers in late summer when little else is in flower; neat, compact habit of growth and good fall colour
Convolvulus cneorum	•	•												E	A small spreading evergreen shrub to 60cm in height, with narrowly oblong, very silvery leaves and funnel-shaped white flowers tinged pink in bud, up to 4cm in width
Coprosma Brunnea	•	•												E	Dark, brownish green linear leaves. Low, sprawling habit good for rockeries. Tiny flowers followed by translucent blue berries
Coprosma cunninghamia	•													E	A shrub with linear lanceolate leaves and clear pale berries
Coprosma Lemon and Lime	•													E	An attractive evergreen shrub with foliage which is marked shades of lemon and lime nearing the centre of each leaf. Excellent when grown in a protected site where the shiny foliage will give an exotic feel
Cordyline australis	•		•			•								E	A small evergreen tree with several stout branches arising from a single trunk. Leaves long, sword-shaped, in dense clusters at the branch tips. Large panicles of small, fragrant cream flowers
Cornus alba Elegantissima	•		•			•								D	A bushy deciduous medium-sized shrub to 3m, with deep red stems and grey-green, white-margined narrowly ovate leaves to 10cm in length. Flowers small, creamy-white, in flat heads; berries white

Cornus alba Sibirica Westonbirt	•		•										D	A medium-sized deciduous shrub forming a thicket of slender red stems, becoming bright crimson in winter. Leaves ovate, turning reddish in autumn, flowers small, cream, in flat heads; berries bluish-white	
Cornus alba Kesselringii	•	•				•							D	A vigorous deciduous shrub forming a thicket of upright dark red shoots which become blackish-purple in winter, with oval leaves turning red and purple in autumn; small cream flowers are followed by white berries	
Cornus alba Sibirica		•				•							D	A medium-sized deciduous shrub forming a thicket of slender red stems, becoming bright crimson in winter. Leaves ovate, turning reddish in autumn, flowers small, cream, in flat heads; berries bluish-white	
Cornus sanguinea Midwinter Fire	•		•			•							D	A spreading shrub with orange-red and yellow young shoots bearing oval leaves and insignificant white flowers in summer; grown for the coloured stems which are brightest in winter	
Cornus ser. White Gold	•		•			•							D	Golden stems and variegated leaves. Stems look good in winter	
Cornus sto. Flaviramea		•											D	A medium-sized deciduous shrub, forming thickets of greenish-yellow stems brightest in winter. Leaves ovate, turning red or orange in autumn; flowers small, off-white, in small clusters, followed by white berries	
Coronilla gla. Citrina	•		•			•							E	A small evergreen shrub with blue-grey, pinnate leaves and heads of small, fragrant, lemon-yellow flowers in late winter and early spring	
Coronilla gla. Pygmae	•	•											E	Compact with bright yellow pea like flowers	
Coronilla gla. Variegata	•		•		•								E	A compact, rounded, evergreen shrub with pinnate, blue-green and cream variegated leaves and fragrant, yellow flowers in late winter and early spring, and again in late summer	
Correa Marian's Marvel	•	•				•							E	A tender, spreading, evergreen shrub with reddish-brown stems bearing oval, dark green leaves and clusters of tubular, pink flowers with wide, yellow or bright green petal margins	
Correa Backhouseana	•		•			•							E	A spreading evergreen shrub to 2m in height, with small oval leaves with reddish scurf beneath, and pendulous tubular pale yellow-green flowers 2.5cm in length	
Correa Dusky Bells	•	•				•							E	A low spreading evergreen shrub with scurfy stems, ovate leaves and pendent, tubular carmine-red flowers to 2.5cm in length from autumn to spring	
Corylus avellana		•											✓	D	A large, spreading deciduous shrub or small tree, with rounded leaves turning yellow in autumn, and yellow male catkins in early spring, followed by edible nuts in autumn
Cotinus cog. Royal Purple	•		•			•							D	A bushy large deciduous shrub to 5m, with rounded, deep purple leaves becoming redder in autumn. Large feathery, pink inflorescences in summer	
Cotinus cogg. Golden Spirit **	•		•										D	A medium size hardy deciduous shrub that produces bronzey young leaves in spring which mature to golden yellow in summer before turning salmon and orange in autumn	
Cotinus Flame	•		•			•							D	A large deciduous shrub to 6m, with rounded leaves to 12cm in length, turning bright orange and red in autumn. Large feathery pink inflorescences	
Crataegus monogyna		•											✓	D	A small, rounded deciduous tree with glossy, deeply lobed leaves and flat sprays of cream flowers, followed by dark red berries in autumn
Crinodendron hook. Ada Hoffmann	•	•											E	An upright, half-hardy, evergreen shrub, with rigid, narrowly elliptic, dark green leaves and lantern-shaped, pink flowers in spring and summer	
Crinodendron hookerianum	•		•										E	A dense, medium-sized evergreen shrub to 6m, with rigid, narrow, dark green leaves and fleshy, lantern-shaped, crimson flowers 2.5cm in length from late spring to late summer	
Crinodendron patagua	•		•										E	Large evergreen shrub with glossy green leaves. Pretty white bell shaped fragrant flowers in late summer	
Cytisus x praecox Allgold	•		•			•							D	A free-flowering deciduous small shrub of bushy, dense habit, with small, mostly simple leaves, silky when young. Flowers bright deep yellow, in late spring	
Daphne odo. Aureomarginata	•	•											E	A compact evergreen shrub with leathery dark green leaves narrowly edged with yellow, and clusters of fragrant purplish-pink flowers, white within, in early spring	
Daphne odora Leucanthae		•											E	A deciduous or evergreen shrub with small, usually very fragrant tubular, 4-lobed flowers, often followed by colourful berries	

PLANT 	POT SIZE 										HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION

Daphne odora Green	•												E	A bushy shrub with fragrant flowers
Daphne tangutica	•	•											E	Small evergreen shrubs to 75cm in height, of dense, rounded habit, with short dark green elliptic leaves and clusters of fragrant flowers from late spring, nearly white within, purple on the outside. Dark orange berries
Davidia Vilmoriniana			•										D	A small to medium-sized tree, initially with a symmetrical, broadly pyramidal structure, the crown becoming more rounded and open with age. In unfavourable positions often only a large shrub
Desfontainia spinosa	•	•											E	A slow-growing, erect, medium-sized evergreen shrub with small, spiny, holly-like dark green leaves and bright scarlet flowers with yellow tips
Deutzia x kalmiiiflora	•		•			•							D	An open, deciduous shrub with arching braches, oval, mid-green leaves that turn purple in autumn and upright panicles of deep pink, star-shaped flowers in early summer
Dodonaea viscosa purpurea			•									✓	E	A large evergreen shrub with large, elliptic purple-red leaves, and clusters of tiny yellowish-green or pinkish flowers, followed by red winged pods
Drimys lanceolata	•		•										E	A dense, upright, evergreen tree or shrub with dark red shoots, leathery, lance-shaped, glossy, dark green leaves, clusters of fragrant, pale yellow or white flowers in mid- and late spring and spherical, black fruit in autumn
Elaeagnus pungens Maculata	•		•			•						✓	E	A bushy, evergreen shrub with glossy yellow leaves narrowly edged green. It has spiny branches and bears small, fragrant, silvery-white flowers in autumn followed by brown fruits that turn red
Elaeagnus x ebbingei	•		•			•						✓	E	A large, dense, rounded evergreen shrub with broad, leathery, dark or metallic sea-green leaves, silvery scaly beneath, and small, fragrant white flowers in autumn
Embothrium cocc. Lanceolatum	•	•											E	An upright evergreen shrub or small tree, with leathery, lance-shaped leaves and clusters of narrowly tubular scarlet flowers in late spring and early summer
Escallonia Apple Blossom	•		•									✓	E	A compact evergreen shrub, with small, glossy dark green leaves and chalice-shaped, pink and white flowers from early summer
Escallonia Donard Radiance	•		•									✓	E	A small but vigorous evergreen shrub of compact growth, with relatively large, glossy, rounded leaves. Flowers rose-red, in early and mid-summer
Escallonia Golden Ellen	•		•										E	An evergreen shrub with yellow leaves splashed with green. In mid to late summer, it bears clusters of large pink flowers.
Escallonia Iveyi	•		•									✓	E	A vigorous medium-sized evergreen shrub with fairly large, glossy dark green leaves, and large panicles of pure white flowers in mid and late summer
Escallonia Slieve Donard	•		•									✓	E	A very hardy compact shrub with masses of pink/white flowers
Escallonia rub. var. Macrantha	•		•									✓	E	A vigorous evergreen shrub with relatively big pink-red flowers. It is a great hedging plant, especially on windy coastal site
Escallonia rubra Crimson Spire	•		•									✓	E	A vigorous, mid-sized, evergreen shrub with relatively large, glossy, dark-green leaves. It bears bright, deep crimson flowers in summer and early autumn
Eucalyptus Citriodora	•		•										E	Lemon scented lanceolate leaves. Lovely smooth, pale grey bark. Fast growing up to 50m
Eucalyptus Cordata	•		•										E	Strong dense growth of glaucous heart-shaped blue-grey leaves. Smooth bark, coloured greenish yellow or white
Eucalyptus gunnii	•		•			•							E	A large evergreen tree with peeling cream and brown bark. Juvenile foliage bright glaucous-blue Rounded adult leaves elliptic and grey-green. Flowers white, in small clusters
Eucalyptus parvifolia	•					•							E	A compact medium-sized evergreen tree with peeling grey bark and elliptic juvenile foliage. Adult leaves narrow, drooping blue-green. Flowers small and white
Eucalyptus pau. subsp niphophila	•		•					•					E	A small evergreen tree with bark flaking attractively into cream, grey and green patches. Young shoots red with white bloom. Leaves elliptic, becoming narrower on mature trees, grey-green. Flowers small, white
Eucalyptus perriniana	•					•		•					E	Spinning gum. Cold hardy and exposure tolerant variety. Leaves are round glaucous blue-green. Bark is white-green to pale copper shredding in ribbons
Euonymus alatus		•											D	A large, spreading, deciduous shrub with triangular stems. Leaves oval, turning rosy-crimson in autumn. Flowers small, greenish, followed by purplish-red fruits splitting to reveal orange seeds

Euonymus for. Blondy **	•		•		•										E	A compact evergreen shrub to 60cm tall, with bright deep yellow, ovate leaves narrowly margined with dark green
Euonymus for. Emerald 'n' Gold	•	•													E	A dwarf evergreen shrub of spreading habit, with broadly yellow-margined leaves, tinged pink in winter
Euonymus for. Emerald Gaiety	•	•													E	A small, bushy evergreen shrub, but climbing if planted against a wall. Leaves rounded, with an irregular white margin, tinged pink in winter
Euonymus for. Harlequin	•	•													E	A dwarf evergreen perennial. It has white speckled ovate green leaves with scalloped margins that become pink-tinted in winter
Euonymus for. Silver Queen	•	•													E	A bushy evergreen shrub with dark green, ovate leaves margined with white and often tinged pink, and inconspicuous pale green flowers in summer
Euonymus jap. Micro Variegata	•	•												✓	E	A small evergreen shrub with tiny dark green leaves margined with creamy-white
Euonymus jap. Bravo	•	•												✓	E	A super creamy white variegated evergreen hedging shrub, very popular for all sorts of positions because they provide year round interest and are well suited to all positions, including cold, windy and coastal
Euonymus jap. Microphyllus	•		•		•									✓	E	A small evergreen shrub with tiny dark green leaves margined with creamy-white
Euphorbia amy. Purpurea			•												E	A softly downy evergreen perennial, with deep purple stems and leaves, and contrasting lime-green flowers opening at the ends of the leafy stems in spring and early summer
Euphorbia Martinii			•												E	A dwarf evergreen perennial with narrow, dark grey-green leaves and open sprays of greenish-yellow flowers
Euphorbia Wulfennii			•												E	An erect, sparsely-branched medium-sized perennial with oblong, grey-green leaves and large, rounded heads of bright greenish-yellow flowers
Exochorda x mac. The Bride	•		•												D	A medium-sized, rounded deciduous shrub with arching branches bearing oblong, pale green leaves. White flowers in short racemes from late spring
Fagus sylvatica		•				•								✓	D	A large, vigorous deciduous tree with a broad, spreading crown. Leaves broadly elliptic, yellow-green in spring, rich russet-brown in autumn.
Fagus sylvatica Purpurea		•				•		•						✓	D	A beautiful deciduous hedge or tree with dark purple leaves
Ficus car. Brown Turkey			•							•					D	A large deciduous shrub with bold, deeply lobed leaves and insignificant flowers followed by edible fruit
Ficus car. Brunswick			•			•				•					D	A spreading, deciduous shrub or small tree with rounded, deeply lobed, mid- to dark green leaves and insignificant, green flowers in late spring followed by edible fruit
Fuchsia Riccartonii	•					•									D	An upright medium-sized deciduous shrub with small ovate leaves. Flowers small, with crimson tube and sepals, petals violet-purple
Gardenia jas. Kleim's Hardy	•	•			•										E	A dwarf, low mounded, evergreen shrub that has dark green foliage and star shaped, single white flowers. Intense fragrance appearing most profusely in early summer
Garrya elliptica	•		•			•									E	An evergreen shrub with magnificent long silver grey catkins January to February
Gaultheria procumbens	•														E	A dwarf evergreen shrub spreading indefinitely, with rounded leathery leaves, aromatic when crushed and turning reddish in winter. Small, bell-shaped white or pinkish flowers are followed by scarlet berries
Genista Lydia	•	•													D	A compact deciduous dwarf shrub with arching or trailing branches. Leaves small, flowers pea-like, bright yellow in early summer
Grevillea Canberra Gem	•		•			•									E	A vigorous medium-sized evergreen shrub of rounded habit, with rigid, linear leaves, and bright deep pink flowers in clusters from late winter to late summer
Grevillea Juniperina			•												E	A variable species which occurs in prostrate or decumbent forms as well as shrubby forms. The leaves are linear and sharp at tips
Grevillea lan. Mount Tamboritha	•	•													E	Interesting grey-green leaves, prostrate honeysuckle like pink and white flowers
Grevillea Olympic Flame	•		•			•									E	A tender, compact, rounded, evergreen shrub with linear to broadly elliptic, sharply-pointed, dark green leaves and dense racemes of reddish-pink and cream flowers blooming throughout the year
Grevillea rosmarinifolia Jenkinsii	•		•												E	Dark green leaves, honeysuckle like pink and white flowers
Grevillea Victoriae	•		•												E	Royal grevillea shrub with long leaves and red pendant flowers

Grevillea Yellow	•		•												E	A fabulous grevillea with golden yellow flowers
Griselinia littoralis	•		•			•								✓	E	A fast-growing large evergreen shrub with light green, broadly oval leaves
Griselinia lit. Variegata	•		•			•								✓	E	An upright evergreen shrub with leathery, bright green ovate leaves irregularly margined with creamy-white
Griselinia lit. Dixon's Cream	•		•											✓	E	An upright evergreen shrub with leathery, bright green ovate leaves, irregularly margined with creamy-white
Helwingia chinensis	•		•												E	An unusual shrub that has white flowers that sit on top of the dark green leaves
Hoheria stardust			•												E	A large but compact evergreen shrub of broadly columnar habit, with narrowly ovate, jaggedly toothed dark green leaves and clusters of small, fragrant white flowers in late summer
Hydrangea arb. Annabelle	•		•			•									D	A small, bushy deciduous shrub with broadly oval leaves and very large, spherical heads of white flowers in summer
Hydrangea aspera subsp. robusta	•														D	A tall and spreading shrub with large flowering clusters of deep purple-blue with pale powder-blue on the outer edges. Silvery-green leaves with a downy undersides
Hydrangea mac. Altona	•		•			•									D	Large heads of rich-pink to dark purple-blue flowers from July to August and coarsely toothed, dark green leaves. Best in partial shade
Hydrangea Mme Emile Moulliere	•		•												D	A small deciduous shrub, with large oval leaves and rounded heads of white flowers, sometimes tinged pink in full sun
Hydrangea pan. Pink Diamond	•		•			•									D	A vigorous deciduous shrub with conical panicles of creamy white sterile and fertile flowers which age to a deep pink, borne from late summer into autumn
Hydrangea pan. Vanille Fraise	•		•												D	A vigorous, upright to spreading, deciduous shrub with, mid-green leaves. Strongly vanilla scented conical panicles of cream flowers that turn rose-pink and then deep red with age
Hydrangea Petiolaris	•		•												D	A deciduous shrub usually grown as a self-clinging climber, but also suitable for cultivation as a stand alone shrub. It has fresh-green, serrated, ovate leaves and in early summer, bears large, pretty, white lace-cap flowers
Hydrangea quer Sikes Dwarf	•		•												D	A dwarf form of the popular oakleaf hydrangea. A lovely plant that has green oak shaped leaves and great autumn colour. Bright white summer flowers
Hydrangea quer. Snow Queen	•														D	A shrub with deeply lobed leaves and showy, cream flowers. The foliage produces outstanding autumn colour
Hydrangea ser. Kiyosumi	•		•			•									D	A compact, bushy, deciduous shrub with ovate, pointed, dark green leaves, flushed maroon when young. White flowers with pink or red edges from midsummer to early autumn
Hypericum Hidcote	•		•												SE	A small bushy semi-evergreen shrub with narrowly ovate leaves. Flowers bright yellow with orange anthers
Hypericum Rowallane	•		•												SE	An upright medium-sized semi-evergreen shrub with arching branches bearing ovate leaves and large, deep golden-yellow flowers

Solanum rantonnetii

Phormium crimson Devil and Phormium Jester

Ilex alt. Camellifolia (F)	•											✓	E	A vigorous medium-sized evergreen tree with dark glossy green, almost spineless leaves, on purple young shoots. Flowers small, dull white, followed by large red berries
Ilex alt. Golden King (F)	•		•			•						✓	E	A small bushy evergreen tree or shrub with broad ovate, slightly spiny leaves margined with bright yellow. Flowers small, dull white; berries brownish-red, not abundant
Ilex aquifolium (M + F)	•		•			•						✓	E	A medium-sized evergreen tree, slow-growing when young, with dark, glossy green, undulate and usually strongly spiny leaves. Small, dull white flowers in spring are followed by bright red berries, on pollinated female plants
Ilex aqu. Argentea Marginata (F)	•					•						✓	E	A medium-sized evergreen tree of conical outline, with spiny, leaves boldly edged with cream and tinged pink when young. Flowers small and white. Bright red berries
Ilex aqu. Elegantissima (M)	•		•			•						✓	E	Bushy, dense shrub with small, oval, bright green leaves, edged cream.
Ilex aqu. Handsworth New Silver (F)	•											✓	E	A compact, dense evergreen tree or shrub with purple young shoots. Elliptic, spiny leaves, broadly margined with white. Flowers small and white, followed by bright red berries
Ilex aqu. Silver Milkmaid (M)	•											✓	E	An evergreen shrub with spiny dark green leaves with an irregular white central blotch, and bright red berries from late autumn
Ilex aqu. Silver Queen (M)	•											✓	E	A dense small evergreen tree or shrub with purple young shoots and pink-tinged young leaves. Mature leaves spiny, dark green with a broad cream margin. Flowers small, white, male
Ilex aqu. Alaska (F)	•											✓	E	An upright, compact, small tree with narrow, evergreen, glossy, deep-green, spiny foliage. In summer it has tiny white, inconspicuous flowers and produces red berries from autumn until early spring
Ilex aqu. Amber (F)	•											✓	E	A small evergreen shrub or tree with glossy dark green, smooth-edged leaves and small white flowers followed by deep yellow berries
Ilex aqu. Angustifolia (M)	•											✓	E	A neat compact holly with small spiny leaves and purple stems
Ilex aqu. Dragon Lady (F)	•											✓	E	A narrow, upright evergreen holly with dark blue-green leaves and red berries in fall and winter when pollinated by a male holly
Ilex aqu. Ferox Argentea (M)	•		•			•						✓	E	A large, bushy evergreen shrub with purple young shoots. Leaves small, spiny on upper surface as well as the margins, broadly edged with creamy-white. Flowers small and white
Ilex aqu. JC Van Tol (F)	•					•						✓	E	A small evergreen shrub of open habit with purple young shoots. Leaves ovate, almost spineless, glossy dark green. Flowers small, dull white, berries large and abundant, bright red
Ilex aqu. Madame Briot (F)	•					•						✓	E	A bushy small evergreen tree with purple young stems. Leaves broadly ovate, spiny, with a bold golden-yellow margin. Small white flowers and bright red berries
Ilex aqu. Montrosa (M)	•											✓	E	Unusual dense, very spiny holly. Bright green stems
Ilex aqu. Scotica (F)	•											✓	E	Distinct green spineless variety with twisted leaves and red berries
Ilex crenata (F)	•	•			•							✓	E	A hardy japanese holly with tiny leaves that makes a good box like hedge
Ilex cre. Dark Green						•						✓	E	A slow-growing evergreen shrub with rich dark green leaves and a compact habit may produce black berries in late autumn
Ilex cre. Convexa (F)	•	•		•								✓	E	A very hardy japanese holly with small bright green box like leaves
Ilex cre. Fastigiata (F)	•	•										✓	E	A very narrow japanese holly with small dark green leaves
Ilex cre. Golden Gem (F)	•	•										✓	E	A low-growing, compact dwarf evergreen shrub of spreading habit with small, golden yellow leaves. Flowers and fruits sparingly produced
Ilex mes. Blue Prince (M)	•		•			•						✓	E	Excellent evergreen hedging holly, with extremely dense habit, purplish shoots bearing glossy, dark blue-green leaves. Tiny white flowers over a long period followed by masses of brilliant red berries
Ilex mes. Blue Princess (F)	•		•			•						✓	E	A bushy, spreading evergreen shrub, with dark spiny, blue-green leaves and bright red berries in autumn and winter
Ilex Ripley Gold	•					•						✓	E	One of the brightest of the variegated hollies, bearing deep green leaves generously splashed with gold and lime green. Orange-red berries
Ilex verticillata (F) (Winterberry)						•						✓	D	Deciduous variety. Bare branches covered in red berries
Ilex x meserveae Blue Angel (F)	•											✓	E	A dense, slow growing evergreen shrub, with neat, dark blue-green, spiny leaves. Small white flowers followed by bright red berries

Indigofera Gerardiana	•					•							D	A medium-sized deciduous shrub, herbaceous in colder areas and then making up to 1.2m annual growth. Leaves pinnate with 13-21 small leaflets. Flowers 12mm, rosy-purple, in racemes to 12cm in length from early summer	
Itea vir. Henry's Garnet	•												D	Dark green leaves turn scarlet and crimson in fall. Large flowers and excellent autumn colour	
Justicia rizzinii	•												E	A bushy evergreen shrub with small, ovate, dark green leaves and small nodding clusters of tubular, yellow and scarlet flowers from late autumn to early spring	
Kunzea Badja Carpet	•	•											E	An evergreen trailing or prostrate groundcover shrub with small obovate dull green leaves and white fluffy flowers in summer	
Laurus nobilis	•		•										✓	E	A large, erect evergreen shrub with aromatic, narrowly ovate, leathery leaves useful in cooking. Flowers small, pale greenish-yellow, in dense clusters. Glossy black fruits
Laurus noblis Aurea	•		•										✓	E	A large evergreen shrub of broadly conical habit with leathery, aromatic, golden-yellow leaves, brightest in winter and spring, and dense clusters of small, greenish-yellow male flowers in spring
Lavandula angustifolia Hidcote	•	•											✓	E	A bushy dwarf evergreen shrub with narrow, silvery-grey leaves and small deep violet-purple flowers in dense, aromatic spikes
Lavandula Edelweiss		•											✓	E	An evergreen shrub with linear, grey-green leaves and spikes of fragrant, pure white flowers in summer
Lavandula intermedia Grosso		•											✓	E	An evergreen shrub with narrow, grey-green foliage and long-stemmed, very aromatic, deep bluish-purple flower heads in summer
Lavandula stoechas		•											✓	E	A bushy evergreen shrub with narrow, grey-green leaves, and small violet flowers in long-stalked, dense ovoid heads tipped with large purple bracts
Lavatera Barnsley	•												SE	A vigorous shrub with 3-lobed, grey-green leaves and clusters of red-eyed flowers, that open white, ageing to pale pink, over the summer	
Leptospermum sco. Apple Blossom	•												E	An upright evergreen shrub with double light-pink flowers that appear in a very strong flush in the spring as well as in the fall. It has tiny needle-like green leaves sometimes tinged with pink.	
Leptosermum sco. Kiwi	•	•											E	A dwarf evergreen shrub with neat bronze-tinged foliage and dense habit. Deep pink flowers produced in late spring and early summer	
Leptospermum sco. Red Damask	•	•											E	A dense medium-sized evergreen shrub with narrow, dark green leaves. Flowers deep red from late spring	
Leucothoe font. Rainbow	•		•			•							E	An evergreen shrub, with slender arching reddish branches bearing glossy. Lance-shaped leaves mottled with cream and pink, and short racemes of small cream flowers below the branches in spring	
Leucothoe font. Scarletta	•		•										E	A compact shrub with vivid scarlett leaves in autumn. White-cream racemes of flowers	
Leycesteria formosa	•												D	A vigorous deciduous shrub with erect sea-green stems. Ovate leaves and pendulous racemes of white flowers with showy red-purple bracts, followed by deep purple berries	
Ligustrum ova. Aurea	•	•				•							✓	SE	A dense, large semi-evergreen shrub of erect habit with oval, rich yellow leaves sometimes marked green in the centre. Flowers small, dull white, in small panicles. Fruit a small glossy black berry
Ligustrum ovalifolium	•		•			•							✓	SE	A dense, large semi-evergreen shrub of erect habit with oval, green leaves. Flowers small, dull white, in small panicles. Small glossy black berries
Ligustrum vulgare	•		•			•							✓	SE	A bushy semi-evergreen shrub with dull green, lance-shaped leaves and terminal panicles of small, white, flowers in summer, followed by small black berries
Liquidamber						•							D	A deciduous tree, broadly conical in outline, with rather glossy, maple-like, 5 to 7-lobed leaves which turn to shades of orange, crimson and purple in autumn	
Lithodora diffusa Heavenly Blue	•	•											E	A prostrate evergreen shrub forming a wide mat, with small, hairy leaves and abundant, vivid deep blue flowers 12mm in width	
Lonicera fragrantissima	•												E	A bushy deciduous shrub with simple, ovate leaves, and pairs of very fragrant, 2-lipped cream flowers in winter and early spring	
Lonicera nit. Baggensens Gold	•	•											✓	E	A small dense evergreen shrub with tiny, ovate, yellow leaves becoming greenish-yellow in shade. Insignificant flowers followed by pale violet berries
Lonicera nitida	•	•											✓	E	A twiggy shrub with small, glossy, dark green leaves. It makes a good alternative to box as it's fast growing and can be tightly clipped into small hedges

Lophomyrtus obcordata	•		•			•							E	A slow growing slender shrub with white flowers in summer and red berries in autumn
Lophomyrtus x ralphii Little star	•	•											E	A low, spreading evergreen shrub with rounded green leaves that have pink-flushed, cream margins. From late summer to early autumn, it produces fragrant, white flowers
Lophomyrtus x ralphii multicolour		•											E	Pretty small leaf with creamy green/grey variegation. Flowers white with many stamens
Loropetalum chi. Firedance	•	•											E	Evergreen shrub provides an eye-catching display of glossy purplish-red leaves and dark pink flowers
Loropetalum chi. Rubrum Blush	•		•			•		•					E	A compact evergreen shrub that produces bronze-red new growth, and with age the leaves turn olive green. The frilly pink flowers bloom through out the year, peaking in April
Magnolia delavayi			•			•							E	A dense, rounded, evergreen shrub or tree with ovate to oblong, leathery, dark green leaves and large, short-lived, cup-shaped, creamy or yellowish-white flowers in late summer
Magnolia soulangeana	•	•				•							D	A spreading deciduous tree or large shrub, with obovate leaves and white, pink or purple, goblet-shaped flowers in spring
Magnolia Stellata						•							D	A slow-growing medium-sized deciduous shrub of broadly rounded habit. Leaves narrowly obovate. Flowers white in early spring
Magnolia stellata 'Royal Star'	•	•				•							D	A rounded deciduous shrub with pale pink buds opening in early spring to white flowers
Mahonia Charity						•							E	An upright evergreen shrub with pinnate leaves. Small, cup-shaped yellow flowers in late autumn and winter
Myrtus Luma apiculata	•	•											E	A large evergreen shrub, the older branches with a cinnamon-cream-coloured bark. Leaves small, broadly ovate and aromatic. White flowers and purple berries
Myrtus com. subsp. tarentina	•	•			•								E	A small evergreen shrub of dense growth, with small, narrowly ovate leaves, and pink buds opening to white flowers followed by white berries
Myrtus communis	•		•			•						✓	E	A bushy medium-sized evergreen shrub with small, aromatic, ovate leaves and profuse white flowers followed by purplish-black berries
Myrtus luma api. Glanleam Gold	•	•				•							E	An evergreen shrub to 3m, with attractively peeling, cinnamon-coloured bark and neat, cream-margined elliptic leaves, tinged pink when young. Small white flowers in late summer and autumn
Nandina dom. Fire Power	•		•										E	A compact, upright evergreen shrub with compound leaves which are yellowish-green in summer, becoming orange and red in autumn and winter. Flowers small, white, in conical panicles in summer
Nandina domestica	•		•			•							E	An elegant small evergreen shrub of upright, bamboo-like habit, the compound leaves with lanceolate leaflets, purplish when young and again in winter. Small white flowers in large panicles are followed by red berries
Olea europaea	•		•			•			•				E	European olive, grey-green leaves and tiny white flowers
Olearia capiliaris	•		•										E	Evergreen, highly branched, medium, round shrub. Ovate, slightly toothed leaves White flowers in clusters around June
Olearia fragrantissima	•												E	Wiry stemmed shrub. Small scented yellow/green flowers
Olearia macrodonta	•		•									✓	E	A vigorous medium-sized evergreen shrub with spiny-toothed, ovate, grey-green leaves, white-felted beneath. Small, fragrant white flowers are borne in large clusters in summer
Olearia odorata	•		•										E	A small shrub with small light green leaves with a large amount of interlacing twigs

Trachycarpus fortunei

Viburnum tinus

Berberis thu. Rose Glow

Hypericum Rowallane

Olearia Virgata	•		•												E	Medium, hardy shrub with long, wiry four angled stems. Linear leaves, arranged in pairs. Small white flowers
Olearia x Haastii	•		•											✓	E	An upright, evergreen shrub with deep green, glossy leaves. In summer it is smothered with daisy-like, fragrant flowers
Osmanthus delavayi	•		•		•									✓	E	A dense, rather slow-growing medium-sized evergreen shrub with rounded or ovate, dark green leaves to 2.5cm in length. Abundant small, highly-scented white flowers in clusters are followed by small, blue-black berries
Osmanthus het. Goshiki	•	•				•								✓	E	A slow-growing and compact evergreen shrub, with holly-like, coarsely spined oval leaves marbled with cream and often tinged pink or bronze when young, and clusters of small fragrant white flowers in the leaf axils in late summer or autumn
Osmanthus heterophyllus	•				•		•							✓	E	A slow growing holly like shrub. Dark green foliage
Osmanthus het. Variegatus	•		•			•								✓	E	A rather slow-growing medium-sized evergreen shrub with spiny, ovate leaves boldly edged with creamy-white. Flowers small, white, fragrant, sometimes followed by black fruits
Osmanthus x burkwoodii	•	•				•								✓	E	A dense, slow-growing, large evergreen shrub of rounded habit with dark green, ovate leaves. Clusters of small, highly-scented white flowers, occasionally followed by a few black fruits
Osteospermum compacta	•														D	Cheerful, bright pink daisy flowers. Good groundcover with spready low growing foliage
Parrotia persica							•								D	A wide-spreading, often multi-stemmed deciduous tree or large shrub with attractive flaking bark. Leaves turn yellow, red and purple in autumn. Small crimson flowers on bare twigs
Philadelphus Yellow Cab	•														D	An upright, bushy, deciduous shrub with ovate, yellow-green leaves, bright yellow when young, Fragrant, single white flowers with reddish-purple throats
Phillyrea angustifolia	•	•					•								E	A compact evergreen shrub, with narrow, dark green leaves, and small clusters of fragrant off-white flowers in the leaf axils in late spring and early summer
Phillyrea latifolia	•	•													E	An elegant olive like evergreen plant with masses of small glossy dark green leaves
Phormium Apricot Queen	•	•			•										E	An evergreen, clump-forming perennial with leathery, spiky leaves that are striped peachy-yellow and deep apricot, with green margins
Phormium Bronze Baby	•														E	Attractive, architectural bronze leaves which arch over at the tips
Phormium Cream Delight		•			•										E	An evergreen perennial making a compact clump of arching, sword-shaped leaves which are mostly cream, narrowly edged with green
Phormium Crimson Devil	•	•			•										E	Upright bright red, leaves with crimson margins. Slender variety, good for architectural type planting
Phormium Duet		•			•										E	An evergreen perennial with sword-shaped leaves green in the centre, variegated with cream along the margins
Phormium Dusky Princess	•	•			•										E	A stunning evergreen perennial forming a wonderful plant with very dark purple arching leaves. Looks fabulous both in the garden or in a pot
Phormium Evening Glow	•														E	An evergreen perennial forming a clump of strap-shaped leaves that are predominately red with pink, bronze and purple variegations. Its foliage is upright and gently arching.
Phormium Firebird	•	•				•		•							E	A clump-forming, evergreen perennial bearing large, upright bronze-green to purple-green leaves with wide, bright red margins
Phormium Gold sword		•			•										E	An evergreen perennial with upright creamy-yellow leaves, The outer edges are striped with dark green
Phormium Jack spratt	•	•													E	Dwarf variety, Reddish brown leaves with a bright green base. Ideal for tubs and underplanting
Phormium Jester		•			•										E	A beautiful, arching, evergreen perennial bearing deep pink leaves with bright green margins. Forms a stunning clump which can be grown in gardens and in pots
Phormium Limelight					•										E	Strong, upright variety. Uniform, lime green leaves
Phormium Mahogany					•										E	Erect, dark mahogany leaves. Lovely looking variety. Great for both containers and borders
Phormium Phoenix	•	•			•										E	One of the most eye catching Phormiums. This evergreen perennial looks stunning in both a pot or planted directly into the garden with its erect, dark reddish purple leaves with vivid crimson stripe

Phormium Pink Panther	•				•									E	Graceful, arching candy pink leaves with ruby red margins. Forms a stunning clump which can be grown in gardens and in pots
Phormium Pink Stripe	•				•									E	A clump-forming, evergreen perennial bearing broad, linear, leathery, dark bronze-green leaves with wide, bright pink margins
Phormium Rainbow Chief	•				•									E	Erect, striking scarlet, bronze and green striped leaves which arch over at the tips
Phormium Rainbow Maiden	•													E	Arching, deep pink with bronze-red margins. Upright variety, with arching tips
Phormium Rainbow Queen	•													E	Broad, bronze-green leaves with rose-red margins, and a sliver of cream at the edge
Phormium Rainbow Sunrise	•	•			•									E	Erect, apricot, orange, pink and bronze striped leaves
Phormium Sundowner	•				•									E	An evergreen perennial, with bronze-green striped leaves turning red and pink towards the margins
Phormium Sunset					•									E	Upright variety, pink-red leaves with olive green margins
Phormium Tricolour	•				•									E	An evergreen perennial making a large clump of sword-shaped leaves striped with yellow and green, edged with red
Phormium Yellow Wave	•					•			•					E	Elegant, weeping variety. Wide yellow leaves with deep green margins
Photinia dav. Palette	•		•											E	Striking shrub, with cream pink and green marbled leaves
Photinia Little Red Robin	•	•				•							✓	E	Dwarf version of Photinia red robin. Very showy red young foliage. Makes a lovely low hedge
Photinia x fraseri red robin	•		•			•							✓	E	A dense medium-sized evergreen shrub of erect habit, with glossy, elliptic leaves, bright red when young. Creamy-white flowers
Physocarpus opu. Diablo **	•		•			•								D	A deciduous shrub with deep purple, three-lobed leaves and clusters of small white, pink-tinged flowers in summer
Physocarpus opu. Lady In Red **	•		•			•								D	A compact, branching deciduous shrub with lobed, doubly-toothed red to red-purple leaves. Clusters of small, cup-shaped, pale pink flowers in summer
Pieris Bert Chandler	•								•					E	A colourful evergreen shrub with unusual pink new growth which fades to white and eventually green. Showy chains of white bell-shaped flowers
Pieris jap. Flaming Silver	•	•												E	A small, erect evergreen shrub. Young foliage bright red, becoming green, boldly margined with silvery-white. Small creamy-white bell-shaped flowers form in branching clusters in spring
Pieris jap. Forest Flame	•	•												E	Large evergreen shrub, the young foliage bright red, becoming pink and cream, finally green. Small cream bell-shaped flowers in large branched clusters in spring
Pieris jap. Katsura **	•	•												E	Dome shaped variety with striking red leaves in spring. Racemes of rose coloured bell shaped flowers
Pieris jap. Little Heath	•	•												E	A compact evergreen small shrub. Small leaves with white margins. Flowers white, from pink buds
Pieris jap. Mountain Fire	•	•												E	A bushy medium-sized evergreen shrub with red young leaves, turning coppery-green and finally dark green; flowers creamy-white, in branched panicles in mid spring
Pieris jap. Purity	•													E	A compact, bushy, medium-sized evergreen shrub. Foliage at first pale green, becoming dark green in summer. Flowers relatively large, pure white, in erect panicles, produced freely on young plants
Pieris jap. Valley Valentine	•	•												E	Bright red new growth. Racemes of deep red flowers with white base
Pieris jap. Variegata	•		•											E	A broadleaf evergreen shrub bearing leaves with a white margin, which may be tinged pink in spring, and drooping white flowers.
Pieris Scarlett O'Hara	•													E	An evergreen shrub with bright red new foliage turning to glossy green foliage and white bell shaped flowers
Pieris Wakehurst	•	•												E	A vigorous medium-sized evergreen shrub of bushy habit, with bright red young leaves, turning to cream and finally dark green. Cream flowers in large, drooping sprays
Pittosporum eug. Variegatum	•		•		•								✓	E	A large, bushy evergreen shrub with slender, dark shoots and glossy oval leaves margined with creamy-white; small, fragrant pale yellow flowers are borne in terminal clusters in summer
Pittosporum Green Globe	•	•												E	Small leafed dwarf variety. Mound forming

Rosmarinus off. Green Ginger	•		•									✓	E	Upright habit, pale blue flowers and short, dark green, needle-shaped leaves which smell of mild ginger. Good for any sunny and dry location
Rosmarinus off. Miss Jessopp's	•		•									✓	E	A compact, erect, medium-sized evergreen shrub with aromatic, narrowly oblong, dark green leaves, whitish beneath. Small, two-lipped light blue flowers are borne mainly in spring and summer
Rosmarinus off. Pyramidalis	•		•										E	A very erect strong rosemary, blue flowers, Makes a lovely scented medium hedge
Rosmarinus off. Subury Blue	•		•									✓	E	An upright, evergreen shrub with narrow, linear, aromatic, dark green leaves and whorls of small, two-lipped, pale blue flowers in spring and summer
Rosmarinus off. Roman Beauty **	•		•										E	A compact and slow growing semi-upright Rosemary with slightly arching stems bearing narrow mid-green leaves and violet-blue flowers in late winter and spring
Rosmarinus pink	•		•									✓	E	An upright shrub with highly aromatic, needle-like leaves and small mauve-pink flowers in the upper leaf axils in spring and summer
Rubus thibetanus Silver Fern	•												D	A medium-sized deciduous shrub with arching purplish prickly stems bearing pinnate leaves. Leaves dark green above and whitish beneath. Panicles of small purplish flowers
Salvia mic. Newby Hall	•												D	A bushy sub-shrub with green ovate leaves and two-lipped, blood-red flowers in late summer and autumn
Sambucus nig. Black Beauty **	•		•			•							D	A compact, deciduous shrub or tree with dark purple-black leaves. Flat heads of pink flowers in early summer and dark purple-black berries in autumn
Sambucus nig. Black Lace **	•		•			•							D	A shrub with dark purple acer like dissected leaves and pink flowers
Sambucus nig. Pulverulenta	•		•										D	Leaves striped, mottled with white give this large multi-stemmed shrub a soft appearance
Sambucus rac. Sutherland Gold	•	•				•							D	A medium-sized deciduous shrub with attractive bright golden-yellow, pinnate leaves. Small conical heads of creamy-white flowers followed by glossy red berries
Sarcococca confusa	•	•											E	A bushy evergreen shrub with glossy, deep green, wavy ovate leaves. In winter, very sweetly scented, creamy-white flowers, followed by glossy black berries
Sarcococca hook. Var. dignya	•	•											E	A small, suckering evergreen shrub with green or purplish stems, narrowly lanceolate mid-green leaves and clusters of small, creamy-white, fragrant flowers. Berries black
Sarcococca ruscifolia	•	•											E	A small, slow-growing evergreen shrub with glossy, narrowly-ovate leaves, small, fragrant, creamy-white flowers and dark red berries
Sasa Veitchii	•	•			•								E	Spreading clumps of erect, slender canes, bearing broadly lance-shaped leaves soon becoming papery light brown on the margins
Solanum rantonnetii	•												D	A deciduous shrub that produces blue/purple flowers throughout the summer months
Sorbaria sorbifolia Sem **	•		•										D	A compact, upright, thicket-forming, deciduous shrub with erect stems bearing pinnate, yellow-green to bright green leaflets, heavily flushed pink, red and bronze in spring and turning red in autumn
Spiraea japonica Goldflame	•		•										D	A deciduous shrub with bronze growth in spring, tuning gold then green and dark-pink flowers in late summer
Syringa Josee			•										D	An upright, compact, semi-dwarf, deciduous shrub with ovate to heart-shaped, mid- to dark green leaves and strongly fragrant panicles of single, tubular pink to lavender-pink flowers in early spring
Syringa mic. Superba	•					•							D	A bushy, spreading medium-sized deciduous shrub with small, dark green, broadly-ovate leaves. Fragrant, single, long-tubed, rosy-pink flowers in loose panicles
Syringa Miss Kim			•										D	A small, deciduous shrub that bears panicles of pale-purple flowers in spring that gradually fade to almost white by early summer
Syringa vulg. Katherine Havemeyer						•							D	An upright medium-sized deciduous shrub becoming spreading with age, with mid-green, heart-shaped leaves and compact panicles of fragrant, double, lavender-purple flowers which fade to lilac-pink
Syringa vulg. Sensation	•												D	Single, purple-red flowers with a distinct white edge to each petal. Highly scented. Ideal for wildlife-friendly gardens
Tamarix Pink Cascade			•										E	An evergreen shrub with pink flowers and mid green dramatic foliage. Good for coastal sites
Teucrium chamaedrys		•											SE	Attractive, dark green, fragrant foliage. Light pink to deep purple flowers which blossom in summer and early autumn.

PLANT 	POT SIZE 											HEDGE PLANTS	EVERGREEN/ DECIDUOUS	DESCRIPTION

Terms and Conditions

This price guide cancels all previous lists.

Orders

All orders are accepted and subject to availability, crop failure or shortages, however caused. Placing an order implies acceptance of our Terms and Conditions.

Quotes

Quotations are willingly given and remain valid for orders confirmed within 28 days providing the stock quoted is still available.

Prices

All prices are ex nursery for the quantities stated, and exclusive of VAT, which will be applied at the current rate at date of invoice. Pot sizes and plant heights are approximate. Orders of less than 20 liners (1 tray) of one variety will cost 10p extra per plant. Prices on application for large quantities. The right is reserved to vary prices without notice.

Delivery & Packaging

We can arrange delivery on danish trollies or pallets via our own van locally, or with a 3rd party at a cost. Liners will be supplied in 20 x 9cm marketing trays where possible. If 18 or 20 x 9cm Empot carriers are used these will be charged at 60p each unless exchanged, a credit will be given if they are returned.

Payment

Approved accounts are due for settlement within 30 days of date of invoice. Overdue accounts will be subject to a credit surcharge of 2.5% per month, which will be added to the account. New customers wishing to open a credit account can request an application form. Customers that do not have a credit account must pay by cash or cheque on collection or delivery or by bank transfer prior to collection or delivery.

Complaints

Any complaint must be notified within 2 days of receiving goods and confirmed in writing within 7 working days. Whilst we make every effort to ensure the quality and correct description of our stock, our liability is restricted to the replacement of plants supplied, or to a refund of the price paid.

Title & Risk

The risk in the plants will pass to the customer on collection/delivery, but the Title remains with Shallowmead Nurseries Ltd until payment has been received in full.

Labels

By arrangement, we can label and pre-price plants individually to your requirements using our self tie labels at a cost of 12p each including a colour photo where available and a barcode.

General

Orders not collected within 7 days of an agreed date for collection may be resold unless special arrangements are made. We reserve the right to impose a charge for cancellation of an order. All stock bought in specifically at the customer's request must be paid for even if the order is cancelled.
